

CONTENTS

Part I—Technical, Commercial, Environmental, and Legal Papers

Exploration—mature and frontier areas

T.R. Walker

Deepwater and frontier exploration in Australia—historical perspectives, present environment and likely future trends

15

G. Ellis

Hydrocarbon entrapment in Triassic to Late Jurassic reservoirs in the Timor Sea, Australia—new insights

39

R.J. Seggie, S. Lang, N. Marshall, C. Cubitt, D. Alsop, R. Kirk and S. Twartz

Integrated multi-disciplinary analysis of the Rankin Trend gas reservoirs North West Shelf, Australia

55

D.D. Ferdinando, J.C. Baker, A. Gongora and B.A. Pidgeon
Illite/smectite clays preserving porosity at depth in Lower Permian reservoirs, northern Perth Basin

71

K.P. Lanigan, G. Bunn and J. Rindschwentner

Longtom—confirmation of a new play in offshore Gippsland

91

J. Draper

Georgina Basin—an early Palaeozoic carbonate petroleum system in Queensland

107

G. Ambrose, M. Scardigno and A.J. Hill

Petroleum geology of Middle–Late Triassic and Early Jurassic sequences in the Simpson Basin and northern Eromanga Basin of central Australia

127

C. Uruski, C. Kennedy, T. Harrison, G. Maslen, R. Cook, R. Sutherland and H. Zhu

Petroleum potential of the Great South Basin, New Zealand—new seismic data improves imaging

145

P. E. Williamson and F. Kroh

The role of amplitude versus offset technology in promoting offshore petroleum exploration in Australia

163

N. Shaw

The CUBE—a new ventures subsurface compute technology concept

177

Reservoir modelling and evaluation

G. Sanchez, A. Kabir, E. Nakagawa and Y. Manolas

Integration of reservoir and well flow simulators for analysis of horizontal well performance

181

C. Gao, M. Rivero, E. Nakagawa and T. Rajeswaran

Pore network modelling of formation damage due to suspended particles

189

CONTENTS

Part I—Technical, Commercial, Environmental, and Legal Papers

M.Asadullah, P. Behrenbruch and S. Pham

**Reservoir simulation—upscaling,
streamlines and parallel computing** 199

S.T. Chipperfield, J.R. Wong, D.S. Warner, C.L. Cipolla,
M.J. Mayerhofer, E.P. Lolon and N.R. Warpinski

**Shear dilation diagnostics—a new approach
for evaluating tight gas stimulation
treatments** 221

J.Q. Xu, G. Weir, L. Paterson, I. Black and S. Sharma

A case study of a carbon dioxide well test 239

Gas technology developments

D.J. Whitford and J. Pullar

**Australia's gas future—a research and
development perspective** 251

S. Sharma, P. Cook, T. Berly and C. Anderson

**Australia's first geosequestration
demonstration project—the CO2CRC
Otway Basin Pilot Project** 259

J. Driver, O.F. Graff, R. Eie, T. Lund and S. Woodhouse

Novel offshore LNG solutions 271

Wells and facilities

C. Gao, M. Rivero, E. Nakagawa and G. Sanchez

**Downhole separation technology—past,
present and future** 283

G.M. Norman

**Keeping it going—Longford combinaire
refurbishment** 293

G.R. Keen and M.G. Sethi

**Long Island Point fractionation plant
facilitates life extension** 301

Environmental risk management and decision making

S.I. Mackie, S.H. Begg, C. Smith and M.B. Welsh

**Decision type—a key to realising the potential
of decision making under uncertainty** 309

M.B. Ames and J. Wysocki

**Challenges in applying an integrated risk
management approach to social and
environmental issues** 321

P.T. Harris, A. Heap, A. Post, T. Whiteway, A. Potter and
M. Bradshaw

**Marine zone management and the EPBC
Act—how environmental marine geological
information provides certainty for petroleum
exploration** 329

CONTENTS

Part I—Technical, Commercial, Environmental, and Legal Papers

A.M. Warburton and S.E. Singleton

The emerging market in carbon credits in Australia

347

L. Maimone and R. Curtin

Responding to the threat of a cost of carbon

363

Improving regulatory terms

G. Scott and C. Ammundsen

Water and the coal seam gas industry

369

M.L. Carkeet

Changes to gas access legislation—policy rationale and implications for industry

377

B.A. Goldstein, E. Alexander, D. Cockshell, M. Malavazos and J. Zabrowarny

The virtuous life cycle for exploration and production—lead and lag factors

387

B. Pegler, J. Lautenbach and L. Richards

Smoothing the path—changes to Commonwealth offshore petroleum legislation

403

A. Soh and C. Pope

A critical analysis of the offshore unitisation regime in Australia

409

Skills shortage

A. McKinnon

The global workforce—accessing and retaining skilled workers for the upstream petroleum industry

429

K. Hummel and K. Rhodes

Refreshing skills

435

Improving fiscal terms

R. Maynard

Indirect taxation in Australia—where are we?

439

J.H. Murray

Taxation of financial arrangements—further developments

443

Miscellaneous

Abbreviations and acronyms

10
