

Volume 58 • Issue 2 • Conference proceedings • 2018

CONTENTS

ACREAGE RELEASE

Australian onshore petroleum acreage and releases 2018

E. Alexander

426–436

Petroleum geology of the 2018 offshore acreage release areas

T. Bernecker, G. Bernardel, C. Orlov and N. Rollet

437–461

A new compact for communities, government and the resources sector

J. Purtil

462–464

2018 offshore petroleum exploration acreage release

L. Schofield

465–468

YEAR IN REVIEW

Petroleum production and development across Australia 2017

G. Bethune and S. Bethune

469–478

Australian exploration review 2017

M. Quinn and F. Hulbert

479–487

Digital transformation of the oil, gas and energy value chain

P. Taliangis

488–492

BUSINESS – EXTENDED ABSTRACTS

Reliable cost-efficient distributed energy systems with a high renewable penetration: a techno-economic case study for remote off-grid regional coal seam gas extraction

J. Bamberger, T.-C. Chang, B. Mason, A. Mesanovic, U. Münz, W. Priest, R. Thompson, A. Szabo and X. Wu

493–500

Resolving double taxation in a global environment – when might it impact on deal value?

Consideration of the availability of mutual agreement procedures and arbitration

S. Blakelock and G. Hempenstall

501–504

South Australia's power sector: renewables, batteries and the future role of gas

N. Browne and B. Pokharel

505–507

Smart upstream to LNG

R. Byfield

508–512

Evolution of the east coast gas market

P. Byrne

513–515

A new approach to value creation – stranded gas resource commercialisation via low-cost small scale floating LNG projects

D. Cha

516–520

A comprehensive approach to safe and successful asset operatorship transition

N. Clegg and S. Heinemann

521–524

Big oil in 2030: thriving (and driving) in a carbon constrained future

B. Cullinane and S. McGill

525–528

From hydrocarbons to electrons: creating new opportunities for the oil and gas sector

B. Cullinane, M. Wood and B. Ladbrook

529–532

'Zero Routine Flaring by 2030': a new global industry standard

J. Cutler, B. Hamso and F. Sucre

533–537

Optimising energy sourcing and consumption in the oil and gas sector <i>D. Danilovich</i>	538–540
The future of safety in the oil and gas industry <i>S. De Nichilo</i>	541–544
The role of the human in an age of automation <i>B. Farrell</i>	545–549
Contracting with small businesses: include unfair terms in your standard form contracts at your peril <i>A. Freeman</i>	550–552
Navigating the Great Australian Bight using system models <i>E. A. Fulton, C. M. Bulman and S. Goldsworthy</i>	553–556
Accelerating oil and gas investment and reserves by design <i>B. A. Goldstein</i>	557–561
The role of marine science in managing environmental risk offshore <i>P. E. Hardisty, M. Dommissie and K. E. Cooper</i>	562–564
Reimagining the future of gas <i>A. Jaffray</i>	565–568
Australia's LNG wars – an industry under fire <i>S. Kavonic</i>	569–570
Cost recovery: when reducing costs for an asset can increase costs for an operator <i>R. Ludwig</i>	571–573
The prisoner's dilemma: gaming risk in joint venture gas arrangements <i>S. A. McAlister-Smilely and J. M. Spanjaard</i>	574–577
Innovation and technology in marine science: AIMS' North West Shoals to Shore Research Program <i>M. J. G. Parsons, M. G. Meekan, K. J. Miller, M. Thums and J. P. Gilmour</i>	578–581
Working on the land <i>M. Paull, N. Patterson, A. Patch and K. How</i>	582–585
Engineering real success using digital technologies <i>C. Phasey and S. Ashfield</i>	586–588
Leading the WAY: Western Australia is the key to driving LNG as a marine fuel <i>W. Purio, M. Bowen, A. van der Walt and S. Panizza</i>	589–592
LNG as marine fuel – where technology meets logistics <i>D. Raitt</i>	593–595
The smart money: driving shareholder value through better capital allocation <i>S. Reid and F. Decker</i>	596–600
Construction safety case (MAP) – a strategy for successful implementation <i>R. Selleck</i>	601–605
The future of OHS inspections using intrinsically safe mobile technology <i>N. Shibi and K. V. Ahlgren</i>	606–608
Earning community trust to operate – Northern Gas Pipeline <i>J. Spink</i>	609–611
Bursting bubbles: can experiments and analogues help stakeholders and the public visualise risks? <i>L. Stalker, J. J. Roberts and L. Mabon</i>	612–616

Social media use in the Australian energy and resources sectors <i>C. A. Styan</i>	617–620
Using risk connectivity and contagion to add value – how analytics are revolutionising the approach to risk <i>C. Sugars</i>	621–624
An overview of the new Geological and Bioregional Assessments Program <i>A. Swirepik, A. Stacey and R. Dann</i>	625–629
Radical disruption – renewables, technology and the arrival of ‘peak gas’ <i>G. Thompson</i>	630–632
What comes next: responding to recommendations from the task force on climate-related financial disclosures (TCFD) <i>S. Tyagi</i>	633–636
BP’s evolution in the face of Australia’s transforming fuel supply chain: ensuring business sustainability as well as security of supply for the nation’s demands <i>D. Tyzack and L. Sullivan</i>	637–639
Update of the information guidelines to improve scientific information provided to the Independent Expert Scientific Committee on Coal Seam Gas and Large Coal Mining Development <i>G. Walker, S. Taylor, P. Baker and M. Bouma</i>	640–642
Shining the spotlight on the petroleum resource rent tax <i>K. Wee</i>	643–646
Repositioning gas in the power generation mix <i>M. Wilkes</i>	647–650
Implementing process safety critical roles to reduce risk <i>A. J. Wilson and G. G. Ransom</i>	651–654
Empowering Australia in the global oil and gas standardisation initiative <i>A. Woodhams, T. Fletcher, M. Weustink and M. Taylor</i>	655–659
ENGINEERING – EXTENDED ABSTRACTS	
Low-salinity waterflooding in non-polar oil <i>A. Al-Sarhi, A. Zeinijahromi and P. Bedrikovetsky</i>	660–663
Coreflood planning criteria for relative permeability computation by Welge-JBN method <i>A. Al-Sarhi, Z. You, A. Behr, L. Genolet, P. Kowollik, A. Zeinijahromi and P. Bedrikovetsky</i>	664–668
Effect of casing eccentricity on cement sheath integrity <i>E. Arjomand and T. Bennett</i>	669–673
Esso pipeline replacement project <i>D. Bapat and D. Standfield</i>	674–678
Streamlining ‘environment in design’ decision-making – from concept to operations in major development projects <i>J. M. Barrow</i>	679–682
The importance of optimal geological zonation and choice of rock parameters in dynamic reservoir simulation: a case study for the Laminaria field <i>P. Behrenbruch, T. G. Hoang, K. D. Bui, M. T. Do Huu and T. Kennaird</i>	683–689
Building a world-class Australian decommissioning industry <i>K. Bills</i>	690–694
Offshore gas field development – the ripple effect <i>A. Black and G. Saunders</i>	695–699

Injectivity formation damage due to fines migration <i>L. Chequer, M. Bagheri, A. Zeinijahromi and P. Bedrikovetsky</i>	700–704
The insensitivity of thermal diffusivity of natural sediments to saturation <i>A. Ezdini, J. Griffith, N. Lange, S. Tehrani, H. Roshan and M. Sarmadivaleh</i>	705–709
Free drainage of foam mixed with proppants in the presence of nanoparticles <i>Y. Fei, M. Gonzalez and M. Haghighi</i>	710–714
Wellsite serviced power model for the CSG industry <i>G. E. Harris</i>	715–718
Pioneering Li-ion batteries on an offshore platform <i>L. Jacobs, N. Nguyen and R. Beccarelli</i>	719–722
The effective use of data analytics in an advanced compressor performance and degradation monitoring system <i>R. Lucas, A. Jones, W. Ford and M. Doyle</i>	723–727
An experimental investigation into surface roughness of a hydraulic fracture <i>A. Movassagh, M. Haghighi, D. Kasperczyk, M. Sayyafzadeh and X. Zhang</i>	728–732
Using technology and innovation to deliver a step change in CSG workover rig services <i>T. Phelan</i>	733–735
Reducing rig personnel requirements with standards-based real-time data streaming <i>R. Philo and J. Hollingsworth</i>	736–738
Decommissioning: taking control of your committed investment <i>R. Polson</i>	739–742
Effect of kaolinite content on formation damage due to fines migration: systematic laboratory and modelling study <i>T. Russell, L. Chequer, A. Badalyan, Z. You and P. Bedrikovetsky</i>	743–747
Decommissioning – What’s the fuss about? <i>P. Saraceni and K. Liddle</i>	748–752
Financing a mega LNG project and ‘raising the bar’ in securing a social licence to operate <i>Y. Tokunaga</i>	753–755
Evolving Santos’ onshore execution and production business to unlock value and growth through the commodity cycles <i>B. Woods</i>	756–760
How to monitor your safety instrumented system performance <i>A. Yam</i>	761–764
Predictions of fracture growth in Walloon coals using a layer fracture model <i>X. Zhang, B. Wu, L. Connell and Y. Han</i>	765–768
GEOSCIENCE – EXTENDED ABSTRACTS	
Numerical investigation of dynamic and static properties of reservoir rocks <i>M. Abdolghafurian, B. Joodi, S. Iglaue and M. Sarmadivaleh</i>	769–772
Innovative high trace density design with broadband seismic data acquisition in the Cooper–Eromanga Basins, Australia <i>J. Archer, M. Delic and F. Nicholson</i>	773–778
Exploring for stratigraphic traps in the Patchawarra Formation, Cooper Basin: an integrated seismic methodology <i>A. Bennett</i>	779–783

Composition changes of hydrocarbons during secondary petroleum migration <i>S. Borazjani, D. Kulikowski, K. Amrouch and P. Bedrikovetsky</i>	784–787
Geomechanical insights in the Bedout Sub-basin: exploiting technologies for understanding reservoir settings <i>D. A. Castillo, D. Kuek, M. Thompson, F. Fernandes, J. Minken and T. Colson</i>	788–792
Uncovering the Canning Basin: a new comprehensive SEEBASE® model <i>K. Connors, C. Jorand, P. Haines, Y. Zhan and L. Pryer</i>	793–798
Australia's premier shale basin: five plays, 1 000 000 000 years in the making <i>A. Côté, B. Richards, C. Altmann, E. Baruch and D. Close</i>	799–804
The permeability structure of fault zones in sedimentary basins: a case study at the Castle Cove Fault, Otway Basin <i>N. Debenham, N. J. C. Farrell, S. P. Holford, R. C. King and D. Healy</i>	805–808
An outcrop analogue for deepwater salt withdrawal mini-basins: lateral and vertical variations in basin-fill <i>B. I. L. Fernandes, K. J. Amos, T. H. D. Payenberg and S. Lang</i>	809–815
Marine seismic triple source case studies from the Asia–Pacific region <i>E. Hager</i>	816–820
Mapping geology beneath volcanics using magnetic data <i>I. Kivior, S. Markham, L. Mellon and D. Boyd</i>	821–824
Play-based exploration in the southern Cooper Basin: a systematic approach to exploration in a mature basin <i>D. A. Lockhart, E. Riel, M. Sanders, A. Walsh, G. T. Cooper and M. Alder</i>	825–832
Unravelling the Triassic Mungaroo Formation within North Carnarvon Basin using Regional Stratal Slice Volumes <i>T. Marsh, B. Kowalik, R. Welch, A. Powell, H. Howe and B. Hallager</i>	833–838
Tectonostratigraphic framework of the Lower Keraudren Formation, Bedout Sub-basin: interplay of tectonics and sedimentary systems <i>J. Minken, M. Thompson, J. Woodward, F. Fernandes and R. Fabrici</i>	839–844
Insights into the Great Australian Bight gained through marine geology and benthic ecology studies <i>A. Ross, A. Williams, A. Talukder, J. Parr, C. Trefry, R. Kempton, C. Stalvies, R. Schintzie, A. Ezzy, A. Kulpecz, C. Schaefer and P. Rarey</i>	845–851
Cretaceous to present-day tectonic reconstructions of Zealandia <i>H. Seebeck, D. Strogen, P. King, A. Nicol, B. Hines and G. O'Brien</i>	852–857
The stratigraphic architecture, distribution and hydrocarbon potential of the organic-rich Kyalla and Velkerri shales of the Upper Roper Group (McArthur Basin) <i>M. Sheridan, D. R. Johns, H. D. Johnson and S. Menpes</i>	858–864
Investigating depth structure uncertainty for horizontal well placement, Bauer Field, Cooper-Eromanga Basin <i>E. Shirley</i>	865–870
Recent exploration results in the Lower Triassic, Bedout Sub-basin: Australia's next petroleum province? <i>M. Thompson, F. Wehr, J. Woodward, J. Minken, G. D'Orazio, F. Fernandes, M. Kongowoin, L. Hansen, D. Kuek and R. Fabrici</i>	871–877
The Lower Triassic Caley Member: depositional facies, reservoir quality and seismic expression <i>J. Woodward, J. Minken, M. Thompson, M. Kongowoin, L. Hansen and R. Fabrici</i>	878–883
Full waveform inversion: early start of model building process to resolve the complex near surface model in the Exmouth sub-basin, North West Shelf Australia <i>L. Zhang, H. Trihutomo, Y. Gong, B. J. Lim and A. Karvelas</i>	884–889
