

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 56, Issue 10, 2016, 1561–1760

Perspective

Animal nutrition in a 360-degree view and a framework for future R&D work: towards sustainable livestock production

Harinder P. S. Makkar 1561–1568

Review

The contribution of qualitative behavioural assessment to appraisal of livestock welfare

Patricia A. Fleming, Taya Clarke, Sarah L. Wickham, Catherine A. Stockman, Anne L. Barnes, Teresa Collins and David W. Miller 1569–1578

Genetics and Genomics

Cloning and expression of caprine *KIT* gene and associations of polymorphisms with litter size

X. P. An, J. X. Hou, T. Y. Gao and B. Y. Cao 1579–1584

Fatty acid composition and mRNA expression levels of lipid-metabolic genes in the muscles of ovariectomised young goats

Lei Zhang, Yan-yan Wang, Zhan-qin Zhou, Ming-zhe Fu, Guang Li, Fang Peng and Lu Wan 1585–1592

Nutrition and Metabolism

Effect of residual feed intake phenotype–nutritional treatment interaction on the growth performance, plasma metabolic variables and somatotrophic axis gene expression of growing ewes

H. T. Nie, Z. Y. Wang, S. Lan, H. Zhang, Y. J. Wan, Y. X. Fan, Y. L. Zhang and F. Wang 1593–1604

The effect of feeding frequency and dose rate of nitrate supplements on blood haemoglobin fractions in *Bos indicus* cattle fed Flinders grass (*Iseilemia* spp.) hay

I. Benu, M. J. Callaghan, N. Tomkins, G. Hepworth, L. A. Fitzpatrick and A. J. Parker 1605–1611

Dietary supplementation of a novel phytogetic feed additive: effects on nutrient metabolism, antioxidant status and immune response of goats

Mahipal Choubey, Ashok Kumar Pattanaik, Shalini Baliyan, Narayan Dutta, Sunil E. Jadhav and Kusumakar Sharma 1612–1621

Crude protein requirements of free-range laying hens

Mônica Maria de Almeida Brainer, Carlos Bôa-Viagem Rabello, Marcos José Batista dos Santos, Jorge Vitor Ludke, Claudia da Costa Lopes, Waleska Rocha Leite de Medeiros and Fernando Guilherme Perazzo Costa 1622–1628

Feed Quality and Nutritional Value

Production and physiological effects of perennial ryegrass alkaloids under thermoneutral conditions in Merinos

M. L. E. Henry, S. Kemp, I. J. Clarke, F. R. Dunshea and B. J. Leury 1629–1636

Transfer of aflatoxins from naturally contaminated feed to milk of Nili-Ravi buffaloes fed a mycotoxin binder

N. Aslam, I. Rodrigues, D. M. McGill, H. M. Warriach, A. Cowling, A. Haque and P. C. Wynn 1637–1642

Continued on next page

Reducing calcium and phosphorus in crossbred beef cattle diets: impacts on productive performance during the growing and finishing phase

L. F. Prados, S. C. Valadares Filho, S. A. Santos, D. Zanetti, A. N. Nunes, D. R. Costa, L. D. S. Mariz, E. Detmann, P. M. Amaral, F. C. Rodrigues and R. F. D. Valadares 1643–1649

Comparison of banana flower powder and sodium bicarbonate supplementation on rumen fermentation and milk production in dairy cows

Sungchhang Kang, Metha Wanapat, Anusorn Cherdthong and Kampanat Phesatcha 1650–1661

Effect of herb-clover mixes of plantain and chicory on yearling lamb production in the early spring period

S. C. Somasiri, P. R. Kenyon, P. D. Kemp, P. C. H. Morel and S. T. Morris 1662–1668

Microbial phytase improves performance and bone traits in broilers fed diets based on soybean meal and containing lupin meal

S. A. Kaczmarek, A. J. Cowieson, M. Hejdysz and A. Rutkowski 1669–1676

Interactive effects of fenugreek (*Trigonella foenum-graecum* L.) seed extract supplementation and dietary metabolisable energy levels on the growth performance, total tract digestibility, blood profiles, and excreta gas emission in broiler chickens

J. H. Park and I. H. Kim 1677–1682

Behaviour, Well-being and Health

Behavioural characterisation of Holstein steers in three different production systems

O. Blumetto, A. Ruggia, A. Dalmau, F. Estellés and A. Villagrà 1683–1692

Effect of concentrate supplementation on performance and ingestive behaviour of lambs grazing tropical Aruana grass (*Panicum maximum*)

N. M. Fajardo, C. H. E. C. Poli, C. Bremm, J. F. Tontini, Z. M. S. Castilhos, C. M. McManus, B. N. M. Sarout, J. M. Castro and A. L. G. Monteiro 1693–1699

Environment and Production Systems

Methane production and *in vitro* digestibility of low quality forages treated with a protease or a cellulase

J. M. Cantet, D. Colombatto and G. Jaurena 1700–1706

The effects of essential oil and condensed tannin on fermentation and methane production under *in vitro* conditions

Brittany Pinski, Mevlüt Günal and Amer A. AbuGhazaleh 1707–1713

Effect of fresh pasture forage quality, feeding level and supplementation on methane emissions from growing beef cattle

Arjan Jonker, Stefan Muetzel, German Molano and David Pacheco 1714–1721

Evaluation of greenhouse gas emissions from hog manure application in a Canadian cow–calf production system using whole-farm models

Aklilu W. Alemu, Kim H. Ominski, Mario Tenuta, Brian D. Amiro and Ermias Kebreab 1722–1737

Meat Science and Product Quality

Treating *Bos indicus* bulls with rumen transfaunation after 24 hours of transportation does not replete muscle glycogen

C. L. O. Leo-Penu, L. A. Fitzpatrick, H. N. Zerby and A. J. Parker 1738–1744

Differences in carcass traits, meat quality and chemical composition between the pigs of different *CAST* genotype

I. Djurkin Kušec, G. Kušec, R. Vuković, E. Has-Schön and G. Kralik 1745–1751

Education and Translation

Getting the most out of advanced farm management technologies: roles of technology suppliers and dairy industry organisations in supporting precision dairy farmers

C. R. Eastwood, J. G. Jago, J. P. Edwards and J. K. Burke 1752–1760
