ANIMAL PRODUCTION SCIENCE

CONTENTS

Volume 60, Issue 2, 2020, 193–332

Reflections
Animal science Down Under: a history of research, development and extension in support of Australia’s livestock industries
Alan W. Bell  193–231

Nutrition and Metabolism
Dietary nitrate metabolism and enteric methane mitigation in sheep consuming a protein-deficient diet
Effects of phytogenic inclusion level on broiler carcass yield, meat antioxidant capacity, availability of dietary energy, and expression of intestinal genes relevant for nutrient absorptive and cell growth–protein synthesis metabolic functions
Konstantinos C. Mountzouris, Vasileios Paraskeuas, Eirini Griela, George Papadomichelakis and Konstantinos Fegeros  242–253
Dietary supplementation with copper oxide nanoparticles ameliorates chronic heat stress in broiler chickens

Feed Quality, Nutritional Value and Toxicology
Comparison of selenium bioavailability in milk and serum in dairy cows fed different sources of organic selenium
F. Barbé, E. Chevaux, M. Castex, G. Elcoso and A. Bach  269–276
Influence of a mineral supplement containing calcium, phosphorus and micronutrients on intake, digestibility, performance and mineral status of young Nellore bulls in a feedlot
Desirable effects of dietary 4-O-methyl-glucuronorabinoxylan from the Echinacea plant on growth performance, thigh meat quality and development of small intestine in female Partridge-Shank broilers
Qing-Chang Ren, Jing-Jing Xuan, Chuan-Yan Che, Xin-Chao Yan and Zhong-Ze Hu  288–295
Production performance of laying hens at peak lay, sulfur compounds in manure, and selected serum profiles: efficacy of Lactobacillus species as probiotics
K. Saksrithai, N. H. Willits and A. J. King  296–304

Behaviour, Well-being and Health
Influence of shade on panting score and behavioural responses of Bos taurus and Bos indicus feedlot cattle to heat load

Meat Science and Product Quality
Development of batch processing to obtain bioactive materials from pork byproducts
Seung Yun Lee, Sung Yeoul Yoon, Da Young Lee, On You Kim, Hyeong Sang Kim, Eun Young Jung, Kyung Chul Koh and Sun Jin Hur  316–322
Effect of growth path on carcass and meat-quality traits of Hereford steers finished on pasture or in feedlot
Adrielle Mattas Ferrinho, Elisa Peripolli, Georget Banchero, Angélica Simone Cravo Pereira, Gustavo Brito, Alejandro La Manna, Enrique Fernandez, Fabio Montossi, Sabrina Kluska, Lenise Freitas Mueller, Telma Teresinha Berchielli and Fernando Baldi  323–332
