

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 60, Issue 6, 2020, 733–862

Review

Do calcium and magnesium deficiencies in reproducing ewes contribute to high lamb mortality?

Michael A. Friend, Marie S. Bhanugopan, Shawn R. McGrath, Janelle Hocking Edwards, Serina Hancock, Kate Loudon, David Miller, Peter McGilchrist, Gordon Refshauge, Susan M. Robertson, Andrew N. Thompson and David G. Masters 733–751

Genetics and Genomics

Estimation of genetic parameters for micro-environmental sensitivities of production traits in Holstein cows using two-step method

Jamshid Ehsaninia, Navid Ghavi Hossein-Zadeh and Abdol Ahad Shadparvar 752–757

RNA-seq differential gene expression analysis in mammary tissue from lactating dairy cows supplemented with sunflower oil

Sorany Milena Barrientos Grajales, José Julián Echeverri Zuluaga, Albeiro López Herrera, Nélida Rodríguez Osorio and Diana María Bolívar Vergara 758–771

Accuracies of direct genomic breeding values for birth and weaning weights of registered Charolais cattle in Mexico

Francisco J. Jahuey-Martínez, Gaspar M. Parra-Bracamonte, Dorian J. Garrick, Nicolás López-Villalobos, Juan C. Martínez-González, Ana M. Sifuentes-Rincón and Luis A. López-Bustamante 772–779

Nutrition and Metabolism

Animal performance, and enteric methane, manure methane and nitrous oxide emissions from Murrah buffalo calves fed diets with different forage-to-concentrate ratios

Vinu M. Nampoothiri, Madhu Mohini, Bilal Ahmad Malla, Goutam Mondal and Sujata Pandita 780–789

Apparent nutrient digestibility, nitrogen metabolism and microbial protein synthesis in sheep supplemented with different vegetable fats

H. Benhissi, I. Beltrán de Heredia and A. García-Rodríguez 790–795

Impacts of feeding zinc-methionine or chromium-methionine on performance, antioxidant status and physiological responses to transportation stress on lambs

Soheilla Kaki Soumar, Fardin Hozhabri, Mohammad Mehdi Moeini and Zahra Nikousefat 796–805

Dietary lycopene alters the expression of antioxidant enzymes and modulates the blood lipid profile of pigs

Marcelise Regina Fachinello, Eliane Gasparino, André Vinicius Sturzenegger Partyka, Angélica de Souza Khatlab, Leandro Dalcin Castilha, Laura Marcela Diaz Huepa, Leonardo Felipe Malavazi Ferreira and Paulo Cesar Pozza 806–814

Dietary zinc and growth, carcass characteristics, immune responses, and serum biochemistry of broilers

Shizhen Qin, Lingyan Zhang, Fang Ma, Yanzhuo Che, Haibo Wang and Zhaoguo Shi 815–822

Feed Quality, Nutritional Value and Toxicology

Cover crops as alternative forages for ruminants: nutritive characteristics, *in vitro* digestibility, methane and ammonia production

Gaëlle Maxin, Benoît Graulet, Aline Le Morvan, Fabienne Picard, Josiane Portelli and Donato Andueza 823–832

Effects of a high-dose *Saccharomyces cerevisiae* inoculum alone or in combination with *Lactobacillus plantarum* on the nutritional composition and fermentation traits of maize silage

X. L. Zhou, Z. Ouyang, X. L. Zhang, Y. Q. Wei, S. X. Tang, Z. L. Tan, C. J. Wang, Z. X. He, T. Teklebrhan and X. F. Han 833–842

Production Systems, Environment and Management

Sustainable goat production: modelling optimal performance in extensive systems

O. F. Godber, M. Chentouf and R. Wall 843–851

Meat Science and Product Quality

Post-weaning growth rate effects on body composition of Nellore bulls

Luiz H. P. Silva, Pedro V. R. Paulino, Pedro D. B. Benedeti, Mauricio M. Estrada, Lyvian C. Alves, Débora E. F. Assis, Gutierrez J. F. Assis, Fernando P. Leonel, Sebastião C. Valadares Filho, Mário F. Paulino and Mario L. Chizzotti 852–862
