

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 61, Issue 8, 2021, 721–820

Review

Dynamics and influence of environmental components on greenhouse gas emissions in sub-Saharan African rangelands: a review

L. Mapfumo, V. Muchenje, J. F. Mupangwa, M. M. Scholtz and S. Washaya 721–730

Genetics and Genomics

Genome-wide association study between copy number variation regions and carcass- and meat-quality traits in Nellore cattle

Mariana Piatto Berton, Marcos Vinicius de Antunes Lemos, Tatiane Cristina Seleguim Chud, Nedenia Bomvino Stafuzza, Sabrina Kluska, Sabrina Thaise Amorim, Lucas Silva Ferlin Lopes, Angélica Simone Cravo Pereira, Derek Bickhart, George Liu, Lúcia Galvão de Albuquerque and Fernando Baldi 731–744

Genetic and genomic evaluation of different breeding strategies using stochastic simulation in Iranian buffalo (*Bubalus bubalis*)

Abbas Safari, Abdol Ahad Shadparvar, Navid Ghavi Hossein-Zadeh and Rostam Abdollahi-Arpanahi 745–753

Feed conversion efficiency in sheep genetically selected for resistance to gastrointestinal nematodes

G. F. Ferreira, G. Ciappesoni, D. Castells, F. Amarilho-Silveira, E. A. Navajas, D. Giorello, G. Banchemo and I. De Barbieri 754–760

Nutrition, Feed Quality and Production

Formulating diets based on whole cassava tuber (*Manihot esculenta*) and gliricidia (*Gliricidia sepium*) increased feed intake, liveweight gain and income over feed cost of Ongole and Bali bulls fed low quality forage in Central Sulawesi, Indonesia

Marsetyo, I. W. Sulendre, M. Takdir, K. J. Harper and D. P. Poppi 761–769

Effect of increasing dietary proportion of plantain on milk production and nitrogen use of grazing dairy cows in late lactation

Daniel Nkomboni, Racheal H. Bryant and Grant R. Edwards 770–779

Behaviour, Well-being and Health

Effect of three weaning methods on behavioural, cortisol and weight changes in buffalo calves

Luis A. de la Cruz-Cruz, Herlinda Bonilla-Jaime, Héctor Orozco-Gregorio, Juan M. Vargas-Romero, Ariel M. Tarazona-Morales, Maribel M. Estévez-Cabrera and Patricia Roldán-Santiago 780–789

Influence of calf vigour and suckling assistance from birth to weaning in Guzerá beef cattle

Bianca Vilela Pires, Luara Afonso de Freitas, Gabriele Voltareli da Silva, Sérgio Brasil Garcia Pimenta Neves Pereira Lima, Joslaine Noely dos Santos Gonçalves Cyrillo, Nedenia Bomvino Stafuzza, Maria Lúcia Pereira de Lima and Claudia Cristina Paro de Paz 790–799

Production Systems, Environment and Management

Prediction of dry matter intake by feedlot beef cattle under tropical conditions

H. M. da Silva, A. B. Donadia, L.F. Moreno, A.S. de Oliveira, E. H. B. K. Moraes and K. A. K. Moraes 800–806

Effects of grass- and concentrate-based finishing systems on the quality of meat from the *M. longissimus thoracis* of young Sarda bulls

Marco Acciaro, Mauro Decandia, Valeria Giovanetti, Carla Manca, Corrado Dimauro, Salvatore Pier Giacomo Rassu, Margherita Addis and Giovanni Molle 807–820
