Review

Cassava wastewater can be safely used in the diet of feedlot lambs

Paula A. Silva, Aureliano J. V. Pires, Douglas dos S. Pina, Robério R. Silva, Stefanie A. Santos, Carlindo S. Rodrigues, Luís H. A. Matos, Carlos E. Eiras, Daiane Novais Eiras, Taiala C. de J. Pereira and Gleidson G. P. de Carvalho 601–609

Genetics and Genomics

Variation in reticulo-rumen volumes between and within sheep breeds and genetic relationships with production traits

N. R. Lambe, A. McLaren, K. McLean, J. Gordon and J. Conington 610–621

Feed Quality, Nutritional Value and Toxicology

Increasing the proportion of *Leucaena leucocephala* in hay-fed beef steers reduces methane yield

A. Stifkens, E. M. Matthews, C. S. McSweeney and E. Charmley 622–632

Nutritive value and occurrence of mycotoxins in various forage silages sampled at different levels in dairy farm silos

Amal Mannai, Cristina Juan, Jordi Mañes and Hichem Ben Salem 633–644

Production Systems, Nutrition and Management

Optimum inclusion rate of barley in diets of meat chickens: an incremental and practical program

M. Toghyani, S. P. Macelline, S. Greenhalgh, P. V. Chrystal, P. H. Selle and S. Y. Liu 645–660

Evaluating the performance and profitability of varied combinations of brewery by-products for fattening pigs

Geoffrey A. Beyihayo, Eugene Rukundo, Robert Mwesigwa, Timothy Lwanga and Stephen Kabugo 661–667

Alternative measures of cow–calf efficiency for Afrikaner, Bonsmara, Nguni, Angus and Simmental sired calves

G. M. Pyoos, M. M. Scholtz, M. D. MacNeil, A. Theunissen and F. W. C. Neser 668–675

Production Systems in Transition

Utilising *Gliricidia sepium* leaf meal as a protein substitute in cassava-based supplements to increase average daily gain of Ongole bulls and income of smallholder farmers

E. Winarti, Gunawan, A. D. Putridinanti, C. T. Noviandi, S. Andarwati, A. Agus, K. J. Harper and D. P. Poppi 676–681

Nutrition and Product Quality

Effects of silage to concentrate ratio and duration of feeding on the fatty acid composition of ovine muscle and adipose tissue

R. S. Gravador, A. G. Fahey, S. M. Harrison, V. Gkarane, A. P. Moloney, N. P. Brunton, N. A. Claffey, M. G. Diskin, L. J. Farmer, P. Allen and F. J. Monahan 682–690

Partial replacement of sugarcane with cactus (*Opuntia stricta*) cladodes improves milk yield and composition in Holstein dairy cows

B. M. S. Sánchez, A. S. C. Vêras, E. V. Freitas, L. R. Farias, J. G. S. S. Albuquerque, G. A. P. Almeida, R. E. Mora-Luna, C. C. F. Monteiro, M. A. S. Gama and M. A. Ferreira 691–699

Corrigendum

Corrigendum to: Legume grain-based supplements in dairy sheep diet: effects on milk yield, composition and fatty acid profile

Adriana Bonanno, Antonino Di Grigoli, Francesca Vitale, Marco Alabiso, Cristina Giosuè, Francesca Mazza and Massimo Todaro 700–700

[Vol. 56, No. 1 (2016) pp. 130–140]
