Review

- Optimal sheep stocking rates for broad-acre farm businesses in Western Australia: a review
Michael Young, Philip E. Vercoe and Ross S. Kingwell 803–817

Genetics and Genomics

- Genetic parameters for methane emissions in Australian sheep measured in portable accumulation chambers in grazing and controlled environments
P. K. Wahinya, V. H. Oddy, S. Dominik, D. J. Brown, C. A. Macleay, B. Paganoni, A. N. Thompson, A. J. Donaldson, K. Austin, M. Cameron and J. H. J. van der Werf 818–827

Endocrinology and Reproduction

- Measurement of corticosterone in the plasma, eggs and faeces of laying hens
Joanna M. Engel, Paul H. Hemsworth, Kym L. Butler and Alan J. Tilbrook 828–835
- Doppler evaluation of recipient cows treated with progesterone and estradiol
Pedro Henrique Evangelista Guedes, Aline Emerim Pinna, Rita de Cássia Lima Morais, Guilherme Nunes de Souza, Julio Cesar Ferraz Jacob, Carla Fernanda Paranhos de Moura Carvalho, Luiz Altamiro Garcia Nogueira and Clara Slade Oliveira 836–843

Feed Additives, Stress and Metabolism

- Frequency of narasin intake affects ruminal metabolism and growth of lambs
Gabriela B. Oliveira, Daniel M. Polizel, Analisa V. Bertoloni, Marcos V. C. Ferraz, Alexandre A. Miszura, José P. R. Barroso, André S. Martins, Letícia F. Pasqualino, Janaina S. Biava, Evandro M. Ferreira and Alexandre V. Pires 844–850
- Encapsulation of essential oils of rosemary (*Rosmarinus officinalis*): evaluation of *in vitro* antioxidant and antimicrobial properties, and effects on broiler performance
Ali Mousapour, Mohamad Salarmoini, Mohsen Afsharmanesh, Hadi Ebrahimnejad, Amir Meimandipour and Negin Amiri 851–859
- Effects of heat stress on *in vivo* and *in vitro* ruminal metabolism in fat-tailed ewes
A. Amini, R. Pirmohammadi, H. Khalilvandi-Behroozyar and R. Mazaheri-Khameneh 860–869

Management, Behaviour and Performance

- Effect of light and stocking density on performance, breast muscle yield and potential damage caused by feather pecking in two strains of commercial Pekin ducks
J. A. Downing 870–879
- Impact of feeding volumes on performance and bone characteristics of Embrapa 051 laying hens housed in a cage-free system
Juliana Forgiarini, Everton Luis Krabbe, Débora Aline Alves, Valdir Silveira de Ávila, Suelen Nunes da Silva, Eduardo Gonçalves Xavier, Fernando Rutz and Victor Fernando Büttow Roll 880–890

Co-Product Production

- Optimisation of antioxidant, antimicrobial and metal-chelating properties of bioactive peptides from blood wastes by enzymatic hydrolysis
Sarita Kumari, Anurag Pandey, Arvind Soni, Anurag Mahala, Srobana Sarkar, Umesh Suradkar and Y. R. Ambedkar 891–900
