Crop/pasture improvement and protection

A Bayesian modelling approach for long lead sugarcane yield forecasts for the Australian sugar industry.
Y. L. Everingham, N. G. Inman-Bamber, P. J. Thorburn, T. J. McNeill 87

Positional variations in chalky occurrence within a rice panicle and its relation to grain nutritional quality.
Fangmin Cheng, Yi Liu, Zhenghui Liu, Ningchun Zhao, Feng Wang, Qifang Zhang, Guoping Zhang 95

Crop/pasture agronomy and physiology

Delving of sandy surfaced soils reduces frost damage in wheat crops.
M. Rebbeck, C. Lynch, P. T. Hayman, V. O. Sadras 105

Farming systems

Lucerne, phalaris, and wallaby grass in short-term pasture phases in two eastern Australian wheatbelt environments. 1. Importance of initial perennial density on their persistence and recruitment, and on the presence of weeds.
B. S. Dear, J. M. Virgona, G. A. Sandral, A. D. Swan, B. A. Orchard 113

Lucerne, phalaris, and wallaby grass in short-term pasture phases in two eastern Australian wheatbelt environments. 2. Effect of perennial density and species on subterranean clover populations and the relative success of 3 clover cultivars of different maturity.
B. S. Dear, G. A. Sandral, J. M. Virgona, A. D. Swan, B. A. Orchard, P. S. Cocks 123

Effect of second pond dairy effluent applied in spring to silage regrowth of perennial ryegrass based pasture in southern Australia. 1. Dry matter yield and botanical composition changes.
J. L. Jacobs, G. N. Ward 137

Effect of second pond dairy effluent applied in spring to silage regrowth of perennial ryegrass based pasture in southern Australia. 2. Changes in nutritive characteristics and mineral content.
J. L. Jacobs, G. N. Ward 145

Animal breeding and genetics

The effect of dietary docosahexaenoic acid on the expression of lipogenic genes in broilers.

A preliminary genetic analysis of breech and tail traits with the aim of improving the welfare of sheep.
D. R. Scobie, D. O’Connell, C. A. Morris, S. M. Hickey 161

Across population genetic parameters for wool, growth, and reproduction traits in Australian Merino sheep. 1. Data structure and non-genetic effects.

Across population genetic parameters for wool, growth, and reproduction traits in Australian Merino sheep. 2. Estimates of heritability and variance components.

Referees 2006
