

AUSTRALIAN JOURNAL
OF
SCIENTIFIC RESEARCH

SERIES B
BIOLOGICAL SCIENCES

VOLUME 3

MELBOURNE
1950

AUSTRALIAN JOURNAL OF SCIENTIFIC RESEARCH

Published by the Commonwealth Scientific and Industrial Research Organization and the Australian National Research Council

Issued in two series:

Series A — Physical Sciences

(Four issues each year, appearing March, June, September, December)

Series B — Biological Sciences

(Four issues each year, appearing February, May, August, November)

Price: Each series 30/- per annum, separate issues 7/6 each

EDITORIAL BOARD

Chairman and Editor: N. S. Noble

Members: Professor F. M. Burnet

Professor E. J. Hartung

Professor L. H. Martin

Professor J. G. Wood

All enquiries and manuscripts should be forwarded to:

The Editor,

Australian Journal of Scientific Research,

Commonwealth Scientific and Industrial Research Organization,

314 Albert Street, East Melbourne, C.2, Victoria.

Printed by The Advertiser Printing Office, Adelaide

CONTENTS

NUMBER 1, FEBRUARY 1950

	PAGE
The Nature of Reaction Wood. II. The Cell Wall Organization of Compression Wood Tracheids. By A. B. Wardrop and H. E. Dadswell ..	1
The Distribution of Zinc in Oat Plants. By J. G. Wood and Pamela M. Sibly	14
Studies on the Nitrate Reductase of <i>Escherichia coli</i> in the Cell-free State. By W. Joklik	28
The Bactericidal Properties of Certain Cationic Detergents. By M. R. J. Salton	45
The Histology of a Very Large Insect, <i>Macropanesthia rhinocerus</i> Sauss. (Blattidae). By M. F. Day	61
Studies of the Physiology and Toxicology of Blowflies. XIV. The Composition, Formation, and Fate of the Granules in the Malpighian Tubules of <i>Lucilia cuprina</i> Larvae. By D. F. Waterhouse	76
The Reactions of Mosquito Larvae to Regular Repetitions of Shadows as Stimuli. By I. M. Thomas	113
Observations on the Behaviour of Protein in Paper Partition Chromatography. By V. Wynn and G. Rogers	124

NUMBER 2, MAY 1950

Fossil Banksiaeae from Yallourn, Victoria, with Notes on the Morphology and Anatomy of Living Species. By Isabel C. Cookson and Suzanne L. Duigan	133
Fossil Pollen Grains of Proteaceous Type from Tertiary Deposits in Australia. By Isabel C. Cookson	166
The Influence of Rainfall on the Yield of Wheat in South Australia. By E. A. Cornish	178
The Enumeration of Heated Bacterial Spores. I. Experiments with <i>Clostridium botulinum</i> and Other Species of <i>Clostridium</i> . By A. M. Olsen and W. J. Scott	219
The Enumeration of Heated Bacterial Spores. II. Experiments with <i>Bacillus</i> Species. By W. G. Murrell, A. M. Olsen, and W. J. Scott ..	234
The Respiratory Metabolism of Helminths. By Marian Lazarus	245
The Intermediary Metabolism of Nematode Parasites. I. The General Reactions of the Tricarboxylic Acid Cycle. By V. Massey and W. P. Rogers	251

NUMBER 3, AUGUST 1950

	PAGE
An Electron Microscopic Investigation of the Cell Wall Organization of Conifer Tracheids and Conifer Cambium. By A. J. Hodge and A. B. Wardrop	265
Tree Growth Stresses. I. Growth Stress Evaluation. By J. D. Boyd ..	270
Tree Growth Stresses. III. The Origin of Growth Stresses. By J. D. Boyd	294
The Status of the Two Species of <i>Lucilia</i> (Diptera, Calliphoridae) Attacking Sheep in Australia. By D. F. Waterhouse and S. J. Paramonov	310
The Catalytic Effect of Molybdate on the Breakdown of Phosphocreatine. By H. Barker, A. H. Ennor, and K. Harcourt	337
Inactivation of Gonadotrophins. III. Inactivation and Modification of Serum Gonadotrophin by Periodate Ions. By W. K. Whitten ..	346
The Chemical Mechanism of the Oxidative Deamination of Amino Acids by Catechol and Polyphenolase. By E. M. Trautner and E. A. H. Roberts	356
Ruminal Flora Studies in the Sheep. II. The Effect of the Level of Nitrogen Intake upon the Total Number of Free Microorganisms in the Rumen. By R. J. Moir and V. J. Williams	381

NUMBER 4, NOVEMBER 1950

Wood Structure in Relation to Growth in <i>Eucalyptus gigantea</i> Hook. f. By G. L. Amos, I. J. W. Bisset, and H. E. Dadswell	393
Molybdenum in Nitrogen Metabolism of Legumes and Non-Legumes. By A. J. Anderson and D. Spencer	414
Sulphur in Nitrogen Metabolism of Legumes and Non-Legumes. By A. J. Anderson and D. Spencer	431
Relation between Nitrogen Source and the Effects on Flax of an Excess of Manganese or Molybdenum in the Nutrient Solution. By C. R. Millikan	450
Studies on the Nitrogen Metabolism of the Barley Plant (<i>Hordeum sativum</i>). By H. S. McKee	474
Studies in the Metabolism of Plant Cells. VIII. Dependence of Salt Accumulation and Salt Respiration upon the Cytochrome System. By D. C. Weeks and R. N. Robertson	487
