AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

A medium for the publication of results of original scientific research in the biological sciences with special emphasis on the experimental phases. Volumes 1 to 5 issued as the Australian Journal of Scientific Research, Series B: Biological Sciences.

Published by the Commonwealth Scientific and Industrial Research Organization. Issued quarterly, £2 per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of Professor W. P. Rogers (Chairman), Mr. A. E. Scott (Editor-in-Chief), Professor N. S. Bayliss, Professor Sir Macfarlane Burnet, and Professor J. S. Turner.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee appointed by the Board of Standards and consisting of Mr. A. E. Scott (Editor-in-Chief and Chairman), Professor Sir Macfarlane Burnet, Professor R. N. Robertson, Professor W. P. Rogers, and Professor J. S. Turner.

All enquiries and manuscripts should be forwarded to:
The Editor-in-Chief,
Australian Journal of Biological Sciences,
Commonwealth Scientific and Industrial Research Organization,
372 Albert Street, East Melbourne, C.2, Victoria

MELBOURNE
Balanced Polymorphisms with Unlinked Loci. By P. A. P. Moran ................................. 1

Cambial Regeneration in Approach Grafts between Petioles and Stems. By
Pamela M. Warren Wilson and J. Warren Wilson .................................................. 6

The Effect of a Small Axial Pressure on the Growth of the Epicotyl of Vicia
faba var. minor Beck. By R. H. Sodgley and K. P. Barley .................................... 19

Physical Environment and Symbiotic Nitrogen Fixation. I. The Effect of Root
Temperature on Recently Nodulated Trifolium subterraneum L. Plants. By A. H. Gibson ................................................................. 28

Relationship between Effective Nodulation and Time to Initial Nodulation
in a Diploid Line of Trifolium ambiguum M. Bieb. By F. W. Hely ......................... 43

The Root Rot—Fusarium Wilt Complex of Peas. By A. Kerr .................................. 55

Diurnal—Nocturnal Changes in the Starch of Tobacco Leaves. By N. K.
Matheson and J. M. Wheatley .................................................................................... 70

Germination of Conidia of Peronospora tabacina Adam. II. Germination in
vivo. By C. J. Shepherd and M. Mandryk ............................................................ 77

Environment and Sporulation in Phytopathogenic Fungi. IV. The Effect of
Light on the Formation of Peronospora tabacina Adam. By I. A. M. Cruickshank .... 88

Environment and Sporulation in Phytopathogenic Fungi. V. Monilinia fructi
cola (Wint.) Honey: Effect of Water Relations on Regeneration of
Conidia in vivo. By J. B. Corbin and I. A. M. Cruickshank .................................. 99

Studies on Phytoalexins. VI. Pisatin: The Effect of some Factors on Its
Formation in Pisum sativum L., and the Significance of Pisatin in
Disease Resistance. By I. A. M. Cruickshank and Dawn R. Perrin ........................ 111

Promotion of Cell Division by Extracts from Pea Seedlings. By J. A. Zwar
and F. Skoog .............................................................................................................. 129

Germination Patterns Shown by the Light-sensitive Seed of Anagallis arvensis. By A. E. Grant Lipp and L. A. T. Ballard

The Ultrastructure of the Vegetative Cell of Blue-Green Algae. By D. C. Wildon and F. V. Mercer

Lysogeny in Rhizobium leguminosarum and Rh. trifolii. By E. A. Schwinghamer and D. J. Reinhardt

Silage Bacteriology. I. Water Activity and Temperature Relationships of Silage Strains of Lactobacillus plantarum, Lactobacillus brevis, and Pediococcus cerevisiae. By G. W. Lanigan

Plant Responses to Saline Substrates. III. Effect of Nutrient Concentration on the Growth and Ion Uptake of Hordeum vulgare during a Sodium Chloride Stress. By H. Greenway

Electric Potentials and Auxin Translocation in Avena. By I. A. Newman

The Determination of the Salt Relations of the Cytoplasmic Phase in Cells of Beetroot Tissue. By M. G. Pitman

Analysis of Diallel Cross Experiments in a Split-plot Situation. By P. W. M. John

Spermatozoa in the Genital Tract of the Ewe. II. Distribution after Coitus. By P. E. Mattner

The Spatial Relationships between Skin Follicles during their Development in Sheep. By J. H. Claxton

The Electrophoretic Heterogeneity of Ovine Lactate Dehydrogenase. By C. J. Masters

Proteolysis of Wool and its S-Carboxymethyl Derivatives by Pronase and other Proteases. By P. H. Springell
CONTENTS

NUMBER 4, NOVEMBER 1963

The Evolutionary Significance of Sugar Accumulation in *Saccharum*. By T. A. Bull and K. T. Glasziou .......................... 737
Studies on the Use of Cetyl Alcohol as a Transpiration Suppressor. By P. E. Kriedeman and T. F. Neales ...................... 743
Rooting of Cuttings of *Acer rubrum* L. and *Eucalyptus camaldulensis* Dehn. By E. P. Bachelard and B. B. Stowe .............. 751
Ultrastructure of the Developing Aleurone Cells of Wheat Grain. By M. S. Buttrose .................................................. 768
Host–Pathogen Relations in Powdery Mildew of Barley. III. Utilization of Respiratory Energy. By Adele Millerd and K. J. Scott ......... 775
The Mechanism of Host Penetration by *Thanatephorus cucumeris*. By N. T. Flentje, R. L. Dodman, and A. Kerr ....................... 784
*Mycosphaerella pinodes*. II. The Phenology of Ascospore Release. By M. V. Carter ................................................. 800
Studies of the Fine Structure of the Wax Layer of Sultana Grapes. By T. C. Chambers and J. V. Possingham ...................... 818
Factors Affecting Crossing Over in the Tomato. By B. Griffing and J. Langridge .................................................. 826
Comparisons of Potentials for General Combining Ability Selection Methods Utilizing One or Two Random-mating Populations. By B. Griffing .... 838
Skin Grafting between Sub-lines of Inbred Strains of Mice. By Berenice Kindred .................................................. 863
Cytological Observations on Cell Strains Established in Culture from Insect Ovarian Tissue. By J. A. Thomson and T. D. C. Grace .... 869
Spermatozoa in the Genital Tract of the Ewe. III. The Role of Spermatozoan Motility and of Uterine Contractions in Transport of Spermatozoa. By P. E. Mattner ...... 877
The Effect of Ultraviolet Radiation on Ram and Bull Spermatozoa. By R. G. Wales and C. H. Choong .............................. 885
Fatty Acid Components of Ovine Tissue Lipids, and the Response to Prolonged Protein Depletion. By D. J. Horgan and C. J. Masters .... 905

Short Communications

Iron in the Developing Soybean Nodule. By F. J. Bergersen .......... 916
Overwintering of Clover Nodules in Alpine Conditions. By F. J. Bergersen, F. W. Hely, and A. B. Costin ............ 920
Fructose and Glucose Utilization by Lamb and Sheep Brain. By B. P. Setchell .................................................. 922
The Action of the β-Glucosidase of *Stachybotrys atra* on p-Nitrophenyl β-Quinovoside. By M. A. Jermyn .......... 926
Index to Volume 16 .......................................................... 927
