

# AUSTRALIAN JOURNAL OF BOTANY

A journal for papers in ecology and ecophysiology; conservation biology and biodiversity; forest biology and management; cell and molecular biology; palaeobotany; reproductive biology and genetics; mycology and pathology; and structure and development

---

## Contents    Volume 56    Issue 6    2008

### Conservation Biology and Biodiversity

Evidence for the natural occurrence of treeless grasslands in the Riverina region of south-eastern Australia.

*Keith L. McDougall*    461–468

Recruitment of *Eucalyptus strzeleckii* (Myrtaceae) in intensive livestock production landscapes.

*Claire Moxham and Josh Dorrrough*    469–476

An extinction-risk assessment tool for flora threatened by *Phytophthora cinnamomi*.

*S. Barrett, B. L. Shearer, C. E. Crane and A. Cochrane*    477–486

Phenotypic leaf variation in *Avicennia marina* in tropical Australia: can discrete subpopulations be recognised in the field?

*Peter Saenger and Lyndon Brooks*    487–492

The effect of *in situ* seed burial on dormancy break in three woody-fruited species (Ericaceae and Proteaceae) endemic to Western Australia.

*Melanie A. Norman and John M. Koch*    493–500

Habitat characteristics of the rare underground orchid *Rhizanthella gardneri*.

*Jeremy Bougoure, Mark Brundrett, Andrew Brown and Pauline F. Grierson*    501–511

### Ecology and Ecophysiology

Environmental correlates of coastal heathland and allied vegetation.

*S. J. Griffith, C. Bale and P. Adam*    512–526

Climbing strategies determine light availability for both vines and associated structural hosts.

*Anna-Maria Llorens and*

*Michelle R. Leishman*    527–534

*Short Communication.* A compact and inexpensive mobile weighing device for water relations studies of container-grown trees.

*Michael G. McKeon, Daryl C. Joyce and Robert H. Frith*    535–538

### Reproductive Biology and Genetics

Assessing the effect of inbreeding and long-distance gene flow on the invasive potential of

*Senecio pterophorus* (Asteraceae).

*Lidia Caño, Josep Escarré, José M. Blanco-Moreno and F. Xavier Sans*    539–549

### Mycology and Pathology

Phosphonate alters the defence responses of *Lambertia* species challenged by *Phytophthora cinnamomi*.

*Therese Suddaby, Khalaf Alhussaen, Rosalie Daniel and David Guest*    550–556
