

Crop & Pasture Science

Contents Volume 61 Issue 3 2010

Farming systems

- Determinants of the proportion of break crops on Western Australian broadacre farms
M. J. Robertson, R. A. Lawes, A. Bathgate, F. Byrne, P. White, R. Sands 203

Crop/pasture agronomy and physiology

- The impact of urease inhibitor on the bioavailability of nitrogen in urea and in comparison with other nitrogen sources in ryegrass (*Lolium perenne* L.)
K. Dawar, M. Zaman, J. S. Rowarth, J. Blennerhassett, M. H. Turnbull 214

Crop/pasture improvement

- Molecular diversity and genetic structure of modern and traditional landrace cultivars of wheat (*Triticum aestivum* L.)
Harsh Raman, B. J. Stodart, Colin Cavanagh, M. Mackay, Matthew Morell, Andrew Milgate, Peter Martin 222
- SSR allelic diversity in relation to morphological traits and resistance to grain mould in sorghum
Rajan Sharma, S. P. Deshpande, S. Senthilvel, V. P. Rao, V. Rajaram, C. T. Hash, R. P. Thakur 230

Crop/pasture protection

- Incidence of root and hypocotyl diseases in lupin crops in Western Australia between 1986 and 2005
G. J. Thomas, W. J. MacLeod, M. W. Sweetingham 241
- Does grazing of infected wheat by sheep result in salivary transmission of *Wheat streak mosaic virus*?
M. Fahim, H. Dove, W. M. Kelman, L. Ayala-Navarrete, P. J. Larkin 247

Pasture management

- Impacts of grazing management options on pasture and animal productivity in a *Heteropogon contortus* (black speargrass) pasture in central Queensland. 2. Population dynamics of *Heteropogon contortus* and *Stylosanthes scabra* cv. Seca
D. M. Orr, M. C. Yee, M. T. Rutherford, C. J. Paton 255
