Pasture management

Effect of gypsum on establishment, persistence and productivity of lucerne and annual pasture legumes on two grey Vertosols in southern New South Wales

B. S. Dear, M. B. Peoples, R. C. Hayes, A. D. Swan, K. Y. Chan, A. A. Oates, S. G. Morris, B. A. Orchard 435

Crop/pasture improvement

Heterosis in lucerne testcrosses with *Medicago arborea* introgressions and Omani landraces and their performance in synthetics

J. A. G. Irwin, D. J. Armour, P. M. Pepper, K. F. Lowe 450

Trigenomic hybrids from interspecific crosses between *Brassica napus* and *B. nigra*

Aneeta Pradhan, Julie A. Plummer, Matthew N. Nelson, Wallace A. Cowling, Guijun Yan 464

Genetic main effect and genotype $\times$ environment interaction for cooking quality traits in a diallel set of *Indica* rice (*Oryza sativa* L.) varieties

Peyman Sharifi, Hamid Dehghani, Ali Moumeni, Mohammad Moghaddam 475

Allelic diversity in a novel gene pool of canola-quality *Brassica napus* enriched with alleles from *B. rapa* and *B. carinata*

S. Chen, J. Zou, W. A. Cowling, J. Meng 483

Genotype by environment interactions of lucerne (*Medicago sativa* L.) in a cool temperate climate

K. G. Pembleton, R. S. Smith, R. P. Rawnsley, D. J. Donaghy, A. W. Humphries 493

Crop/pasture agronomy and physiology

Yield, yield components and shoot morphology of four contrasting lucerne (*Medicago sativa*) cultivars grown in three cool temperate environments

K. G. Pembleton, D. J. Donaghy, J. J. Volenec, R. S. Smith, R. P. Rawnsley 503
