Dissection of beef quality phenotypes using a myogenin network-anchored systems biology approach

Seasonal variation in the concentrations of conjugated linoleic and trans fatty acids in milk fat from commercial dairy farms is associated with pasture and grazing management and supplementary feeding practices

The impact of clean fleece weight and bodyweight selection in Merinos on meat traits in the progeny

Ewe lamb nutrition during pregnancy affects pregnancy outcome
F. J. Mulvaney, P. R. Kenyon, S. T. Morris and D. M. West 1085–1089

Cashmere production and fleece attributes associated with farm of origin, age and sex of goat in Australia
B. A. McGregor and K. L. Butler 1090–1098

The occurrence and severity of grass toxicoses in Australian alpaca (Vicugna pacos) herds
Natalia Sampaio, Mark Gishen, Kevin Reed, Mel Brown, Daphne Gregory and Kylie Munyard 1099–1104

Reducing the lysine to energy content in the grower growth phase diet increases intramuscular fat and improves the eating quality of the longissimus thoracis muscle of gilts

Designing complex research projects to estimate genetic parameters plus treatment and other effects – optimising the experimental design
D. L. Robinson 1110–1117

Effectiveness of spring spraying targeting diapause egg production for controlling redlegged earth mites and other pests in pasture
Jane M. C. Gower, Ary A. Hoffmann and Andrew R. Weeks 1118–1125

Emerging pest mites of grains (Balaustium medicagoense and Bryobia sp.) show high levels of tolerance to currently registered pesticides
Aston L. Arthur, Ary A. Hoffmann, Paul A. Umina and Andrew R. Weeks 1126–1132

Effect of timing of forage conservation on forage yield and quality, seed yield and seedling regeneration of four subterranean clover (Trifolium subterraneum) cultivars
B. S. Dear, B. F. Hackney, G. M. Dyce and C. A. Rodham 1133–1142

Dietary cation–anion differences in some pasture species, changes during the season and effects of soil acidity and lime amendment
