DISCUSSION

Discussion on 'Negative apparent resistivity in dipole-dipole electrical surveys' (Jung, H.K., Min, D.J., Lee, H. S., Oh, S. H., and Chung H., <i>Exploration Geophysics</i> , 40 , 33–40).....	128
<i>In-Ky Cho and Jung-Ho Kim</i>	
Reply by the authors to the discussion by Cho and Kim	132
<i>Hyun-Key Jung, Dong-Joo Min, Hyo Sun Lee, Seokhoon Oh and Hojoon Chung</i>	

Exploration Geophysics

www.publish.csiro.au/journals/eg

Exploration Geophysics publishes excellent research in geophysics, reviews, technical papers and significant case histories in minerals, petroleum, mining and environmental geophysics, and is an official publication of the Australian Society of Exploration Geophysicists. Authors and readers are professional earth scientists specialising in the practical application of the principles of physics and mathematics to solve problems in a broad range of geological situations. They are variously in industry, government and academic research institutions. All papers are peer reviewed.

Application for Membership 2010

INSTRUCTIONS FOR APPLICANTS

- Determine the membership level you wish to apply for, according to the eligibility criteria outlined in Section 2.
- Fill out the application form. Note that applicants for Active Membership must nominate three referees who are Active members of ASEG. Student members must include a Supervisors Name and Signature. Under exceptional circumstances the Federal Executive Committee may waive these requirements. An active member of SEG does not need referees.
- Attach the appropriate dues and submit the two pages of your application to the Secretariat at the address shown on the top of this page, retaining a copy of this page for your own records. If payment is to be made by credit card, the application may be sent by fax.

Section 1. Personal Identification

Surname		Date of Birth
Given Names		Mr / Mrs / Miss / Ms / Other
Address		
		State
		Post Code
Organisation		
Phone (W)	Fax (W)	
e-mail		
Phone (H)	Fax (H)	
Mobile		

Section 2. Choice of Membership Grade (Tick one)

- Active Please complete all sections except section 7
- Associate Please complete all sections except section 7 (3 and 4 are optional)
- Student Please complete the separate Student Membership Application Form

Active – an applicant must be actively engaged in practising or teaching geophysics or a related scientific field. The applicant's work must have been of a professional nature for **not less than eight years** and must have been of a responsible nature calling for exercise of independent judgement and the application of geophysical or geological principles during at least three years of the total eight years' professional experience. An applicant having worked toward a degree in a scientific field from a recognised college or university may count a portion of the time as a student toward the required eight years' professional experience, not to exceed the following: Bachelor's degree, four years; Master's degree, five years; Doctor's degree, seven years.

Associate – an applicant must be actively interested in geophysics.

Student – an applicant must be a full-time graduate or undergraduate student in good standing in residence at a recognised university or college.

Section 3. Academic and Professional Qualifications

Month / Year (From – To)	Organisation / Institution	Position / Degree (incl. Major)	Professional Record Only: Years of Independent Work

Section 4. Referees

Name	Postal or e-mail address	Phone/Fax

Section 5. Membership of Other Societies

Australian:
 Aus IMM Grade _____ AIG Grade _____ GSA Grade _____ PESA Grade _____
 International:
 AAPG Grade _____ EAGE Grade _____ SEG Grade _____ SPE Grade _____
 Others _____

Section 6. ASEG Membership Directory Record

Please complete this section for the ASEG membership database.
 The ASEG Membership Directory is published in April. The same information is included in the ASEG Web site (www.aseg.org.au)

Employment area:

Industry Contract/Service Provider Government Student
 Education Consulting Other _____

Type of Business:

Oil/Gas Ground Water/Environmental Coal Survey/Geotechnical/Engineering
 Minerals Petrophysics/Log Analysis Research/Education Data Acquisition

The above information is required for our records, but if you do not wish to be included in the ASEG directory or Internet search facility, please indicate by ticking appropriate box below:

I **do not** wish to be included in the ASEG Directory. I **do not** wish to be included in the ASEG member search facility on the Web site.

The association produces a magazine call Exploration Geophysics; please indicate below how you would prefer to receive your copy:

Paper/printed Electronic/CD

Section 9. Promotional Opportunities

The ASEG provides opportunities for special category listings (eg. Consultants, Contractors) in the Directory and a link from the ASEG Internet Web Page.

- I (or my business) would like to be included in a special category listing in the Directory.
- I (or my business) am interested in having a link from the ASEG Internet page. Rates will be advised when links are implemented. (Corporate and Corporate Plus members get a complimentary link.)
- I (or my business) am interested in advertising in the Directory, or other ASEG's publications. Rate details will be forwarded by our Publisher, CSIRO Publishing, elspeth.gardner@csiro.au or Ph +61 3 9662 7668. (Discounts available for Corporate Members and volume advertising)

Section 10. Declaration

I, _____ (name), agree for the Australian Society of Exploration Geophysicists to make all necessary enquiries concerning my application and suitability to become a Member. By lodging this Application and upon being accepted in my membership, I agree to be bound by the Constitution of the Australian Society of Exploration Geophysicists, including its ethical and professional standards.

Application for Student Membership 2010

INSTRUCTIONS FOR APPLICANTS

1. Student Membership is available to anyone who is a full-time undergraduate student in good standing at a recognized university working towards a degree in geophysics or a related field.

2. Determine whether you wish to participate in the Corporate Sponsorship Program, according to the Program details at the bottom of the form.

3. Fill out the application form.

4. Submit the two pages of your application to the Secretariat at the address shown on the top of this page, retaining a copy of this page for your own records. If you do not wish to participate in this program please include your dues payment with this application.

MEMBERSHIP GRADES AND RATES

Student * (Australia/New Zealand)

- Free under the Rio Tinto Student Sponsorship Program** – for students interested in a career in the **mining industry**
- Free under the Origin Energy Student Sponsorship Program** – for students interested in a career in the **petroleum industry**
- A\$22.00 (GST inclusive)

Student * (Rest of the world) A\$20.00 + A\$51.00 ⁺

* Requires accreditation in Section 2

⁺ Mailing surcharge

Student Sponsorship Program

Rio Tinto and Origin Energy are the corporate partners of the ASEG Student Sponsorship Program. If you elect to take part in this program then the company you nominate (either Rio Tinto or Origin Energy) will pay your membership dues for 2008. Information about you contained in the ASEG membership database will be sent by the ASEG to your nominated company for recruitment purposes only. This information will include:

1. Name
2. e-mail Address
3. University
4. Department
5. Level of Study
6. Major Subject/s or Thesis Topic
7. Year of Study
8. Expected Graduation Date

If you do not wish to participate in this program then you will need to include your dues payment with this application form.

Section 4. Declaration

I, _____ (name), agree for the Australian Society of Exploration Geophysicists to make all necessary enquiries concerning my application and suitability to become a Member. By lodging this Application and upon being accepted in my membership, I agree to be bound by the Constitution of the Australian Society of Exploration Geophysicists, including its ethical and professional standards.

Signature: _____ Date: _____

ASEG CODE OF ETHICS (JULY 2000)

Clause 4 of the Articles of Association of the ASEG states that "Membership of any class shall be contingent upon conformance with the established principles of professional ethics":

1. A member shall conduct all professional work in a spirit of fidelity towards clients and employees, fairness to employees, colleagues and contractors, and devotion to high ideals of personal integrity and professional responsibility.
2. A member shall treat as confidential all knowledge of the business affairs, geophysical or geological information, or technical processes of employers when their interests require secrecy and not disclose such confidential information without the consent of the client or employer.
3. A member shall inform a client or employer of any business connections, conflicts or interest, or affiliations, which might influence the member's judgement or impair the disinterested quality of the member's services.
4. A member shall accept financial or other compensation for a particular service from one source only, except with the full knowledge and consent of all interested parties.
5. A members shall refrain from associating with, or knowingly allow the use of his/her name, by an enterprise of questionable character.
6. A member shall advertise only in a manner consistent with the dignity of the profession, refrain from using any improper or questionable methods of soliciting professional work, and decline to accept compensation for work secured by such improper or questionable methods.
7. A membership shall refrain from using unfair means to win professional advancement, and avoid injuring unfairly or maliciously, directly or indirectly, another geophysicist's professional reputation, business or chances of employment.
8. A member shall give appropriate credit to any associate, subordinate or other person, who has contributed to work for which the member is responsible or whose work is subject to review.
9. In any public written or verbal comment, a member shall be careful to indicate whether the statements or assertions made therein represent facts, an opinion or a belief. In all such comments a member shall act only with propriety in criticising the ability, opinion or integrity of another geophysicists, person or organisation.
10. A member will endeavour to work continuously towards the improvement of his/her skills in geophysics and related disciplines, and share such knowledge with fellow geophysicists within the limitation of confidentiality.
11. A member will cooperate in building the geophysical profession by the exchange of knowledge, information and experience with fellow geophysicists and with students, and also by contributions to the goals of professional and learned societies, schools of applied science, and the technical press.
12. A member shall be interested in the welfare and safety of the general public, which may be affected by the work for which the member is responsible, or which my result from decisions or recommendations made by the member, and be ready to apply specialist knowledge, skill and training in the public behalf for the use and benefit of mankind.

ADDITIONAL PROMOTION OPPORTUNITIES

The ASEG also provides opportunities for special category listings (eg. Consultants, Contractors) in the Directory and link from the ASEG Internet Web page.

We would like to be included in special category listings in the Directory.

- We are interested in having a link from the ASEG website.
(Corporate and Corporate Plus members get complimentary link.)
- We would like to advertise in the ASEG Membership Directory.
(5% discount for Corporate Member; 10% discount for Corporate Plus Member.)
 - Minimum Business Card Size. Volume discount available.
 - Larger Advertisement or Colour Option.
Contact Wendy Wild + 61 3 9662 7606.
- We would like to be included in special category listings in the Directory.
- We would like to receive our copy of Exploration Geophysics electronically
