

Supplementary Material

Robert (Robin) Harold Stokes 1918–2016

Thomas H. Spurling^{A,C} and Barry N. Noller^B

^ACentre for Transformative Innovation, Faculty of Business and Law, Swinburne University of Technology, PO Box 218, Hawthorn, Vic. 3122, Australia.

^BCentre for Mined Land Rehabilitation, Sustainable Minerals Institute, The University of Queensland, Brisbane, Qld 4072, Australia.

^CCorresponding author. Email: tspurling@swin.edu.au

Bibliography

Books

1. Robinson, R. A. and Stokes R. H., *Electrolyte Solutions: the measurement and interpretation of conductance, chemical potential and diffusion in solutions of simple electrolytes* (1955) Butterworths, London. Second edition (1959). Revised edition (1965) Reprinted by Courier Dover Publications, New York (2002)
2. Stokes, R. H. and Mills R., *Viscosity of Electrolytes and Related Properties. The International Encyclopedia of Physical Chemistry and Chemical Physics* (1965), Pergamon Press, Oxford.
3. Guggenheim, E. A. and Stokes R. H., *Equilibrium Properties of Aqueous Solutions of Single Strong Electrolytes* (1969), Pergamon Press, London.

Book Chapters

1. Stokes, R.H.: Mobilities of ions and uncharged molecules in relation to viscosity—a classical viewpoint. In: Hamer, W.J. (ed.) *The Structure of Electrolytic Solutions*, pp. 298–307. Wiley, New York (1959)
2. Kelly, F.J., Stokes, R.H.: The transport of an electrolyte during the diffusion of a non-electrolyte. In: Pesce, B. (ed.) *Electrolytes. Proceedings of an International Symposium Held in Trieste, June 1959*, pp. 96–100. Pergamon Press, Oxford (1962)
3. Stokes, R.H., Marsh, K.N., Tomlins, R.P.: Dilution techniques for measuring the thermodynamic and dielectric properties of liquid mixtures. In: *Fourth International Conference on Chemical Thermodynamics*, vol. IX, pp. 120–127. Montpellier, France (1975)
4. Stokes, R.H.: Thermodynamics of solutions. In: Pytkowicz, R.M. (ed.) *Activity Coefficients in Electrolyte Solutions*, vol. I, Chap. I. CRC Press, Boca Raton (1979); Republished in the second edition, Pitzer, K.S. (ed.). CRC Press, Boca Raton (1991)
5. Stokes, R.H.: Solubility of electrolytes. In: *Encyclopaedic Dictionary of Physics*, vol. 6, pp. 545–548. Pergamon Press, Oxford (1962)
6. Hildebrand, J.H., Stokes, R.H.: Solutions. In: *Encyclopaedia Britannica*, vol. 20, pp. 884–892 (1967)
7. Stokes, R.H.: Isothermal displacement calorimeters. In: Marsh, K.N., O’Hare, P.A.G. (eds.) *Solution Calorimetry, Experimental Thermodynamics*, vol. IV. IUPAC Chemical Data Series, no. 39, pp. 131–159. Blackwell Scientific, Oxford (1994). Chap. 7

Papers

1. Robinson, R.A. and R.H. Stokes, *A thermodynamic study of bivalent metal halides in aqueous solution. Part I. The activity coefficients of magnesium halides at 25 degrees.* Transactions of the Faraday Society, 1940. **36**: 733-734.
2. Robinson, R.A. and R.H. Stokes, *A thermodynamic study of bivalent metal halides in aqueous solution. Part IV. The thermodynamics of zinc chloride solutions.* Transactions of the Faraday Society, 1940. **36**: 740-748.
3. Robinson, R.A. and R.H. Stokes, *Part VI. The activity coefficients of manganese, cobalt, nickel and copper chloride in aqueous solution at 25 degrees.* Transactions of the Faraday Society, 1940. **36**: 1137-1138.
4. Stokes, R.H. and R.A. Robinson, *A thermodynamic study of bivalent metal halides in aqueous solution. Part VIII. The activity coefficient of ferrous chloride.* Transactions of the Faraday Society, 1941. **37**: 419-420.
5. Stokes, R.H., J.M. Wilson, and R.A. Robinson, *Isopiestic measurements on solutions of potassium chromate and potassium dichromate.* Transactions of the Faraday Society, 1941. **37**: 566-568.
6. Stokes, R.H., J.M. Stokes, and R.A. Robinson, *A thermodynamic study of bivalent metal halides in aqueous solution. Part X. The osmotic and activity coefficients of zinc bromide.* Transactions of the Faraday Society, 1944. **40**: 533-536.
7. Robinson, R.A. and R.H. Stokes, *A thermodynamic study of bivalent metal halides in aqueous solution .15. Double chlorides of univalent and bivalent metals.* Transactions of the Faraday Society, 1945. **41**(11-1): 752-756.
8. Stokes, R.H., *The derivation of water activities from electromotive force data.* Journal of the American Chemical Society, 1945. **67**(10): 1686-1689.
9. Stokes, R.H., *Isopiestic vapor pressure measurements on concentrated solutions of sodium hydroxide at 25-degrees.* Journal of the American Chemical Society, 1945. **67**(10): 1689-1691.
10. Stokes, R.H., *A thermodynamic study of bivalent metal halides in aqueous solution .11. The osmotic and activity coefficients of zinc iodide at 25-degrees.* Transactions of the Faraday Society, 1945. **41**(1): 12-17.
11. Stokes, R.H., *A thermodynamic study of bivalent metal halides in aqueous solution .13. Properties of calcium chloride solutions up to high concentrations at 25-degrees.* Transactions of the Faraday Society, 1945. **41**(10): 637-641.
12. Stokes, R.H., *A thermodynamic study of bivalent metal halides in aqueous solution .14. Concentrated solutions of magnesium chloride at 25-degrees.* Transactions of the Faraday Society, 1945. **41**(10): 642-645.
13. Stokes, R.H. and J.M. Stokes, *A thermodynamic study of bivalent metal halides in aqueous solution .12. Electromotive force measurements on zinc bromide solutions.* Transactions of the Faraday Society, 1945. **41**(11-1): 688-695.
14. Stokes, R.H., *Correction.* Journal of the American Chemical Society, 1946. **68**(12): 2751.
15. Stokes, R.H., *Correction.* Journal of the American Chemical Society, 1946. **68**(12): 2751-2751.
16. Stokes, R.H. and B.J. Levien, *The osmotic and activity coefficients of zinc nitrate, zinc perchlorate and magnesium perchlorate - transference numbers in zinc perchlorate solutions.* Journal of the American Chemical Society, 1946. **68**(2): 333-339.
17. Stokes, R.H. and B.J. Levien, *Transference numbers and activity coefficients in zinc iodide solutions at 25-degrees.* Journal of the American Chemical Society, 1946. **68**(9): 1852-1854.
18. Stokes, R.H., *The measurement of vapor pressures of aqueous solutions by bi-thermal equilibration through the vapor phase.* Journal of the American Chemical Society, 1947. **69**(6): 1291-1296.
19. Stokes, R.H., *The vapor pressures of solutions of sodium and potassium bisulfates at 25-*

- degrees. Journal of the American Chemical Society, 1948. **70**(2): 874-874.
20. Stokes, R.H., *A thermodynamic study of bivalent metal halides in aqueous solution .16. Complex ion formation in zinc halide solutions.* Transactions of the Faraday Society, 1948. **44**(3): 137-141.
 21. Stokes, R.H., *A thermodynamic study of bivalent metal halides in aqueous solution .17. Revision of data for all 2-1 and 1-2 electrolytes at 25-degrees, and discussion of results.* Transactions of the Faraday Society, 1948. **44**(5): 295-307.
 22. Stokes, R.H. and R.A. Robinson, *Ionic hydration and activity in electrolyte solutions.* Journal of the American Chemical Society, 1948. **70**(5): 1870-1878.
 23. Robinson, R.A. and R.H. Stokes, *Tables of osmotic and activity coefficients of electrolytes in aqueous solution at 25-degrees-c.* Transactions of the Faraday Society, 1949. **45**(7): 612-624.
 24. Stokes, R.H. and R.A. Robinson, *Standard solutions for humidity control at 25-degrees C.* Industrial and Engineering Chemistry, 1949. **41**(9): 2013-2013.
 25. Stokes, R.H., *An improved diaphragm-cell for diffusion studies, and some tests of the method.* Journal of the American Chemical Society, 1950. **72**(2): 763-767.
 26. Stokes, R.H., *The diffusion coefficients of 8 uni-univalent electrolytes in aqueous solution at 25-degrees.* Journal of the American Chemical Society, 1950. **72**(5): 2243-2247.
 27. Dunlop, J. and R.H. Stokes, *The diffusion coefficients of sodium and potassium iodides in aqueous solution at 25-degrees.* Journal of the American Chemical Society, 1951. **73**(11): 5456-5457.
 28. Purser, E. and R.H. Stokes, *Transference numbers in aqueous solutions of zinc sulfate.* Journal of the American Chemical Society, 1951. **73**(12): 5650-5652.
 29. Stokes, R.H., *Integral diffusion coefficients of potassium chloride solutions for calibration of diaphragm cells.* Journal of the American Chemical Society, 1951. **73**(7): 3527-3528.
 30. Stokes, R.H., *One-dimensional diffusion with the diffusion coefficient a linear function of concentration.* Transactions of the Faraday Society, 1952. **48**(10): 887-892.
 31. Hall, J.R., B.F. Wishaw, and R.H. Stokes, *The diffusion coefficients of calcium chloride and ammonium chloride in concentrated aqueous solutions at 25-degrees.* Journal of the American Chemical Society, 1953. **75**(7): 1556-1560.
 32. Hammond, B.R. and R.H. Stokes, *Diffusion in binary liquid mixtures .1. Diffusion coefficients in the system ethanol + water at 25-degrees.* Transactions of the Faraday Society, 1953. **49**(8): 890-895.
 33. Stokes, R.H., *Electrophoretic contributions to the diffusion of electrolytes.* Journal of the American Chemical Society, 1953. **75**(10): 2533-2534.
 34. Stokes, R.H., *Activities of aqueous magnesium and barium acetate solutions at 25-degrees.* Journal of the American Chemical Society, 1953. **75**(15): 3856-3857.
 35. Stokes, R.H., *The electrophoretic corrections to the diffusion coefficient of an electrolyte solution.* Journal of the American Chemical Society, 1953. **75**(18): 4563-4566.
 36. Stokes, R.H., J. Dunlop, and J.R. Hall, *The diffusion of iodine in some organic solvents.* Transactions of the Faraday Society, 1953. **49**(8): 886-890.
