Publications by M. S. Paterson

1. Paterson, M. S. (1947) Notch sensitivity of metals, *Failure of Metals by Fatigue Symposium* held in December 1946, Melbourne University Press, 309-334 pp.
2. Paterson, M. S. (1947) The effect of cold stretching on the damping capacity of mild steel, *Aeronautical Research Laboratory Melbourne, Report SM.85* 51 pp.
3. Paterson, M. S. and Wills, H. A. (1947) The strength of machine parts under fluctuating loads. *Aeronautical Research Laboratory Melbourne, Report SM.82*. A digest of this also appears in *Symposium on Failure of Metals by Fatigue*, Melbourne University Press, pp. 255-257.
4. Cowley, J. M. and Paterson, M. S. (1947) X-ray diffraction studies of yielding in mild steel, *Nature*, 159, 846.
5. Paterson, M. S. and Orowan, E. (1948) X-ray line broadening in cold-worked metals, *Nature*, 162, 991-992.
6. Paterson, M. S. (1949) X-ray line broadening in cold-worked metals, Ph.D. Thesis. Cambridge University.
7. Paterson, M. S. (1950) Calculation of the correction for instrumental broadening in X-ray diffraction lines, *Proceedings of the Physical Society*, 63A, 477-482.

8. Paterson, M. S. (1950) Intrinsic block structure and the strength of metals, *Philosophical Magazine*, 4, 410.
9. Paterson, M. S. (1952) The effects of lattice imperfections on X-ray line broadening, *Journal of Applied Physics*, 23, 499.
10. Paterson, M. S. (1952) X-ray diffraction by face-centered cubic crystals with deformation faults, *Journal of Applied Physics*, 23, 805-811.
11. Paterson, M. S. (1954) X-ray line broadening from metals deformed at low temperatures, *Acta Metallurgica*, 2, 823-830.
12. Paterson, M. S. (1955) Plastic deformation of copper crystals under alternating tension and compression, *Acta Metallurgica*, 3, 491-500.
13. Paterson, M. S. (1955) Discussion on paper by Rosi entitled stress-strain characteristics and slip-band formation on metal crystals, *Transactions of the American Institute for Mining and Metallurgical Engineering*, 203, 696.
14. Paterson, M. S. (1955) A stress-strain machine for testing single crystals in alternating tension and compression, *Journal of Scientific Instruments*, 32, 356-359.
15. Paterson, M. S. (1956) The plastic deformation of single crystals, *Journal of the Australian Institute of Metals*, 1, 112-124.
16. Paterson, M. S. (1957) Lüders' bands and plastic deformation of the earth's crust, *Bulletin of the Geological Society of America*, 68, 129-130.
17. Paterson, M. S. (1958) Experimental deformation and faulting in Wombeyan Marble, *Bulletin of the Geological Society of America*, 69, 465-476.
18. Paterson, MS (1958) The melting of calcite in the presence of water and carbon dioxide, *American Mineralogist*, 43, 603-606.
19. Paterson, M. S. (1959) X-ray line broadening in plastically deformed calcite, *Philosophical Magazine*, 4, 451-466.

20. Griggs, D. T., Paterson, M. S., Heard, H. C. and Turner, F. J. (1960) Annealing recrystallization in calcite crystals and aggregates, *Geological Society of America*, Memoir 79, 21-37.
21. Kemsley, D. S. and Paterson, M. S. (1960) The influence of strain amplitude on the work hardening of copper crystals in alternating tension and compression, *Acta Metallurgica*, 8, 453-467.
22. Paterson, M. S. (1961) Deformation of rocks, *Australian Scientist*, 1, 227-231.
23. Paterson, M. S. and Weiss, L. E. (1961) Symmetry concepts in the structural analysis of deformed rocks, *Bulletin of the Geological Society of America*, 72, 841-882.
24. Paterson, M. S. (1962) O-ring piston seals for high pressure, *Journal of Scientific Instruments*, 39(4), 173-175.
25. Paterson, M. S. and Weiss, L. E. (1962) Experimental folding in rocks, *Nature*, 195, 1046-1048.
26. Paterson, M. S. (1963) Secondary changes of length with pressure in experimentally deformed rocks, *Proceedings of the Royal Society London A*, 271, 57-87.
27. Paterson, M. S. (1964) Effects of pressure on Young's modulus and the glass transition in rubbers, *Journal of Applied Physics*, 35, 176-179.
28. Paterson, M. S. (1964) Triaxial testing of materials at pressures up to 10000 kg cm⁻², *Journal of the Institution of Engineers Australia*, 36, 23-29.
29. Bullen, F. P., Henderson, F., Wain, H. L. and Paterson, M. S. (1964) The effect of hydrostatic pressure on brittleness in chromium, *Philosophical Magazine*, 9, 803-815.
30. Paterson, M. S. (1964) Experimental deformation of rocks, *Discovery*, 25(12), 27-31.
31. Gross, K. A. and Paterson, M. S. (1965) Natural X-ray line broadening in limestones and marbles, *American Journal of Science*, 263, 238-244.
32. Raleigh, C. B. and Paterson, M. S. (1965) Experimental deformation of serpentinite and its tectonic implications, *Journal of Geophysical Research*, 70, 3965-3985.

33. Lyall, K. D. and Paterson, M. S. (1966) Plastic deformation of galena lead sulphide, *Acta Metallurgica*, 14, 371-383.
34. Paterson, M. S. and Weiss, L. E. (1966) Experimental deformation and folding in phyllite, *Bulletin of the Geological Society of America*, 77, 343-374.
35. Means, W. D. and Paterson, M. S. (1966) Experiments on preferred orientation of platy minerals, *Contributions to Mineralogy and Petrology*, 13, 108-133.
36. Paterson, M. S. (1967) Effect of pressure on stress-strain properties of materials, *Geophysical Journal of the Royal Astronomical Society*, 14, 13-17.
37. Paterson, M. S. and Weiss, L. E. (1968) Folding and boudinage of quartz-rich layers in experimentally deformed phyllite, *Bulletin of the Geological Society of America*, 79, 795-812.
38. Paterson, M. S. (1969) 'The ductility of rocks', in *Physics of Strength and Plasticity*, ed. Argon, A. S., M.I.T. Press, pp. 377-392.
39. Weaver, C. W. and Paterson, M. S. (1969) Stress-strain properties of rubber at pressures above the glass-transition pressure, *Journal of Polymer Science A-2*, 7, 587-592.
40. Weaver, C. W. and Paterson, M. S. (1969) Deformation of cube-oriented MgO crystals under pressure, *Journal of the American Ceramic Society*, 52, 293-302.
41. Coe, R. S. and Paterson, M. S. (1969) The α - β inversion in quartz: a coherent phase transition under non-hydrostatic stress, *Journal of Geophysical Research*, 74, 4921-4948.
42. Paterson, M. S. (1970) 'Experimental deformation of minerals and rocks under pressure', in *Mechanical Properties of Materials under Pressure* ed. Pugh, H.D., Elsevier, pp. 191-235.
43. Paterson, M. S. and Turner, F. J. (1970) 'Experimental deformation of constrained crystal of calcite in extension', in *Experimental and Natural Rock Deformation*, ed. Paulitsch, P., Springer, pp. 109-141.
44. Paterson, M. S. and Weaver, C. W. (1970) Deformation of polycrystalline MgO under pressure, *Journal of the American Ceramic Society*, 53, 463-471.

45. Paterson, M. S. (1970) A high pressure high temperature apparatus for rock deformation, *International Journal of Rock Mechanics and Mining Sciences*, 7, 517-526.
46. Edmond, J. M. and Paterson, M. S. (1971) Strength of solid pressure media and implications for high pressure apparatus, *Contributions to Mineralogy and Petrology*, 30, 141-160.
47. Paterson, M. S. and Edmond, J. M. (1971) Deformation of graphite at high pressures, *Carbon*, 10, 29-34.
48. Edmond, J. M. and Paterson, M. S. (1971) Volume changes during the deformation of rocks at high pressure, *International Journal of Rock Mechanics and Mining Sciences*, 9, 161-182.
49. Hobbs, B. E., McLaren, A. C. and Paterson, M. S. (1972) 'The plasticity of single crystals of synthetic quartz', in *Flow and Fracture of Rocks*, ed. Heard, H. C. et al., American Geophysical Union Monograph 16, pp. 29-53.
50. Paterson, M. S. (1973) Non-hydrostatic thermodynamics and its geological application, *Reviews of Geophysics and Space Physics*, 11, 355-389.
51. Etheridge, M. A., Hobbs, B. E. and Paterson, M. S. (1973) Experimental deformation of single crystals of biotite, *Contributions to Mineralogy and Petrology*, 38, 21-36.
52. Etheridge, M. A., Paterson, M. S. and Hobbs, B. E. (1974) Experimentally produced preferred orientation in synthetic mica aggregates, *Contributions to Mineralogy and Petrology*, 44, 275-294.
53. Paterson, M. S. (1974) Laboratory studies in flow in olivine-rich rocks, *Advances in Rock Mechanics*, Proceedings of the 3rd Congress of the International Society for Rock Mechanics, 1A, 521-532.
