Immunisation in NSW

Guest Editorial

- 169 Controlling measles in NSW: how are we doing in the context of other countries in the Western Pacific?**
This issue presents the third in a series of annual immunisation coverage reports for NSW. The editorial introduces the issue and provides an update on progress towards global measles control, particularly within the WHO Western Pacific Region.
Robert I. Menzies, Margaret Burgess and David N. Durrheim
- 171 NSW Annual Vaccine-Preventable Disease Report, 2011**
This annual report summarises data for NSW of vaccine-preventable diseases for 2011 and provides comparison with recent trends. It is based on data from the NSW Notifiable Conditions Information Management System. Vaccine-preventable diseases are generally well controlled, however, pertussis and measles remain important public health issues.
Alexander Rosewell, Paula J. Spokes and Robin E. Gilmour
- 179 NSW Annual Immunisation Coverage Report, 2011**
This annual report presents trends in immunisation coverage in NSW for children, adolescents and elderly people to the end of 2011. It is based on data from the Australian Childhood Immunisation Register, the NSW School Immunisation Program and the NSW Population Health Survey. For adolescents, there was improved coverage in NSW for all doses of human papillomavirus vaccine, both doses of hepatitis B vaccine, varicella vaccine and the dose of diphtheria, tetanus and acellular pertussis given to school attendees in Years 7 and 10.
Brynley Hull, Aditi Dey, Sue Campbell-Lloyd, Robert I. Menzies and Peter B. McIntyre

187 NSW Annual Report Describing Adverse Events Following Immunisation, 2011

This annual report summarises data for NSW of adverse events following immunisation for 2011 and describes trends for the period 2000–2011. It is based on data from the Australian Adverse Drug Reaction Reporting System database. An increase in reported adverse events in NSW in 2011 was mainly attributable to the high rates of injection site reactions.

Deepika Mahajan, Su Reid, Jane Cook, Kristine Macartney and Robert I. Menzies

EpiReview

201 Measles in NSW, 2002–2011

Describes the epidemiology of measles in NSW for the period 2002–2011. NSW has good measles control however outbreaks associated with international travel continue to occur.

The Editor, *NSW Public Health Bulletin*
Locked Mail Bag 961
North Sydney NSW 2059 Australia
Email: phbulletin@doh.health.nsw.gov.au
Telephone: +61 2 9424 5876
Fax: +61 2 9391 9232

Submission of articles

The *Bulletin* accepts proffered and commissioned articles along with short reports, on all aspects of public health. Articles should be 1500–2000 words, not including tables and figures, and should include an abstract of up to 150 words. Articles should follow the journal style and layout as closely as possible, as described in the Instructions to Authors. Articles should be emailed in a Word for Windows format to: phbulletin@doh.health.nsw.gov.au, and should be accompanied by a covering letter signed by all authors and a License to Publish. The Instructions to Authors, License to Publish and other useful information can be downloaded from the *Bulletin* website.

Distribution

The *Bulletin* is freely available from the *Bulletin* website. Copies of the current issue and back issues can be downloaded in both PDF and HTML formats. If you would like to be notified when

new issues of the *Bulletin* are available online, subscribe to the early alert email system at the *Bulletin* website. The early alert email contains the contents of each new issue along with electronic links to the articles. To receive a printed copy of the *Bulletin*, subscribe online at the *Bulletin* website, or contact your local public health unit or the editorial office.
eISSN 1834-8610

The *Bulletin* uses digital publishing at all stages of production as a priority over print. The *Bulletin* is printed on archival quality, chlorine-free paper using low volatility vegetable-based inks and uses computer-to-plate technology. The acid-free paper meets the standards of the American National Standards Institute for Information Sciences—Permanence of Paper for Printed Library Materials, ANSI Z39.48-1992.
