

# PACIFIC CONSERVATION BIOLOGY

Volume 20

Number 3

## Contents

### EDITORIAL

- They're writing a *Nature* paper! *Mike Calver.* 228

### FORUM ESSAY

- 1080-baits for fox control: Is everything all that it seems? *Laurie E. Twigg.* 230

### RESEARCH PAPERS

- Divergent responses to long-term grazing exclusion among three plant communities in a flood pulsing wetland in eastern Australia. *Peter J. Berney, G. Glenn Wilson, Darren S. Ryder, R. D. B.(Wal) Whalley, John Duggin and Robert O. McCosker.* 237

- Impacts of aquatic invasive species and land use on stream food webs in Kaua'i, Hawai'i. *Megan Layhee, Michael P Marchetti, Sudeep Chandra, Tag Engstrom and Daniel Pickard.* 252

- Human impacts and saltmarsh loss in the Circular Head coast, north-west Tasmania, 1952–2006: implications for management. *Vishnu N. Prahalad.* 272

- Public attitude towards conservation in New Zealand and awareness of threatened species. *Mark N. H. Seabrook-Davison and Dianne H. Brunton.* 286

- Vertebrate Fauna In Termite Mounds Compared To Surrounding Vegetation On Barrow Island. *Dorian Moro, Pat Cullen and Jonathan Fletcher.* 296

- Do Koalas *Phascolarctos cinereus* use trees planted on farms? A case study from north-west New South Wales, Australia. *Susan G. Rhind, Murray V. Ellis, Martin Smith and Daniel Lunney.* 302

- Risks to soil biodiversity on the islands of the South Pacific. *Fiaame Leo, Ken K.Y. Wong and Seuseu J. Tauati.* 313

- Evidence is required to address potential albatross mortality in the New South Wales Ocean Trawl fishery. *Eduardo Gallo-Cajiao.* 328

### BOOK REVIEWS

- Temperate Woodland Conservation and Management. *Bernie Masters.* 336

- Culture, Ecology and Economy of Fire Management in Northern Australian Savannas – Rekindling the Wurrk Tradition. *Adam Leavesley.* 337

- Desert Channels — The Impulse to Conserve. *Adam Leavesley and Jennie Mallela.* 339

Papers submitted to *Pacific Conservation Biology* are individually and fully peer reviewed by a minimum of two referees. Referees are independent of the editorial board and are chosen for their expertise in the subject area of the paper submitted. In addition, papers are vigorously reviewed and edited by the editorial board. Nonetheless, the views put by authors are their own and do not necessarily reflect those of the editors or the Publisher.

### COPYRIGHT

Submission of a paper to *Pacific Conservation Biology* will be taken to imply that it presents original unpublished work, not under consideration for publication elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the Publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations. Permission to publish illustrations must be obtained by the author before submission and any acknowledgements should be included in the captions.

Authors of papers in *Pacific Conservation Biology* should be subscribers to the journal. The Editor-in-Chief will ask whether any of the authors is a subscriber when confirming acceptance of a paper. If one or more authors is a subscriber, there will be no charge for publication, unless the authors have agreed to pay the charges for colour or accelerated publication (see below). If no author subscribes, the corresponding author will be invoiced a nominal Aud\$20 per page including a PDF of the published article and charges for colour or accelerated publication (see below). Whether or not one or more authors subscribes has no bearing on the acceptance of a paper. Authors may choose to include colour figures in their papers at a cost of Aud\$150 per page with colour component. Authors may also accelerate publication to the next available issue without penalty to other authors by paying full page charges of Aud\$65 per page.

For your convenience subscription forms are enclosed. If you already subscribe, assist the conservation of biodiversity in the Pacific region by encouraging a colleague and/or library to subscribe.
