

PACIFIC CONSERVATION BIOLOGY

Volume 24 • Issue 3 • 2018

CONTENTS

Editorial: Women in conservation science making a difference <i>M. Byrne, L. Broadhurst, M. Leishman and K. Belov</i>	209
A tangled sward – on becoming a grassland ecologist over the millennium <i>S. McIntyre</i>	215
Searching for meaning in the interface between research and management <i>S. Legge</i>	222
The desert dweller: forging a career in arid zone ecology <i>K. E. Moseby</i>	230
A molecular journey in conservation genetics <i>M. Byrne</i>	235
A serendipitous journey from finance to science <i>L. Broadhurst</i>	244
A circuitous route <i>D. Jones</i>	248
Smart decisions for the environment <i>K. Wilson</i>	251
Environmental decisions and the work/life environment: a story of how the edge brought prioritisation to the fore <i>E. McDonald-Madden</i>	256
From dragonflies to Facebook: digital disruption creates new opportunities for wetland science and conservation <i>J. Davis</i>	261
Reflections on a seminal paper in conservation biology: the legacy of Peters and Darling (1985) <i>L. Hughes</i>	267
Devil women <i>S. Fox, C. J. Hogg, C. E. Grueber and K. Belov</i>	271
Cytogenetics: an important inclusion in the conservation genetics toolbox <i>S. Potter and J. E. Deakin</i>	280
Setting a course for marine mammal research in Western Australia <i>K. Waples and H. Raudino</i>	289
Marine and coastal conservation: a rising affair <i>S. Dittmann</i>	304
Conservation genetics of eastern Australian herpetofauna in a rapidly changing landscape: a perspective on conservation management and policy implementation <i>J. Melville</i>	310
Navigating the fiery debate: the role of scientific evidence in eliciting policy and management responses for contentious plants in northern Australia <i>S. A. Setterfield, N. A. Rossiter-Rachor and V. M. Adams</i>	318
Rarity, taxonomy and genetics: the chequered history of <i>Grevillea williamsonii</i> (Proteaceae) <i>E. A. James, G. K. Brown, R. Jordan and D. J. Ohlsen</i>	329
