

# PACIFIC CONSERVATION BIOLOGY

Volume 28 • Issue 1 • 2022

---

## CONTENTS

### NEWS AND VIEWS

Tribute to Kenneth (Ken) James Wallace: exceptional conservation reserve manager who integrated theory into practical conservation management (9 August 1950–13 October 2021)

*D. A. Saunders, D. J. Pannell and J. Bartle* i

### EDITORIAL

Changes coming at *Pacific Conservation Biology*

*M. Calver* 1

### REVIEW

Review of the reporting of ecological effects of rodent eradications on Australian and New Zealand islands

*R. D. Segal, R. Whitsed and M. Massaro* 4

### PERSPECTIVE

Researcher disillusionment and ungoverned damage to Becher Point Wetlands, Western Australia

*G. R. Fulton* 15

### RESEARCH PAPERS

Variation in feral cat density between two large adjacent islands in Australia's monsoon tropics

*H. F. Davies, Tiwi Land Rangers, M. W. Rees, D. Stokeld, Anna C. Miller, G. R. Gillespie and B. P. Murphy* 18

Animal detections increase by using a wide-angle camera trap model but not by periodically repositioning camera traps within study sites

*A. Seidlitz, K. A. Bryant, N. J. Armstrong and A. F. Wayne* 25

A novel dataset to identify the endemic herpetofauna of the New Caledonia biodiversity hotspot with DNA barcodes

*J. M. Bernstein, T. R. Jackman, R. A. Sadlier, Y. Wang and A. M. Bauer* 36

Distribution and foraging by non-breeding Caspian Terns on a large temperate estuary of south-western Australia – preliminary investigations

*S. Stockwell, C. N. Greenwell, J. N. Dunlop and N. R. Loneragan* 48

Longitudinal trends of future suitable climate for conserving oil palm indicates refuges in tropical south-east Asia with comparisons to Africa and South America

*R. R. M. Paterson* 57

Using experimental trials to improve translocation protocols for a cryptic, endangered passerine

*W. F. Mitchell, R. L. Boulton, L. Ireland, T. J. Hunt, S. J. Verdon, L. G. M. Olds, C. Hedger and R. H. Clarke* 68

### RESEARCH NOTES

Three-way symbiotic relationships in whale sharks

*B. M. Norman, S. D. Reynolds and D. L. Morgan* 80

Turtle density around Mussau Island, Papua New Guinea: with notes on the practicality of in-water distance sampling

*A. Anota and N. Whitmore* 84

Geographic distribution, population and conservation status of *Tragulus nigricans*, an endangered mouse deer endemic to western Philippines

*C. E. Supsup, A. A. Asis, U. V. Carestia Jr., N. M. Puna and J. B. Avanceña* 90

**FIELD NOTE**

Overheating turns a bat box into a death trap

*S. R. Griffiths*

97

**Book reviews**

99

*Corrigendum to:* Distribution and foraging by non-breeding Caspian Terns on a large temperate estuary of south-western Australia – preliminary investigations
