	PAGE		PAGE
Absorption, microwave, by methyl chloride	175	Burrows, K. M., Kelly, J. C., and Ellis, D. E.—	
Allum, F. R., Quirk, T. W., and Spicer, B. M.—		Sodium chloride sensitizing of far ultra-violet spectrum plates .. .	418
Photoneutron angular distributions from lead and bismuth .. .	420	Burton, C. H., Lasich, W. B., Noon, J. H., and Parsons, R. W.—	
Amplitudes, production, complex singularities in .. .	161	Collision broadening in the inversion spectrum of methyl chloride at pressures up to two atmospheres .. .	175
Amplitudes, three-particle interaction, integral equations for .. .	440		
Antarctica, sodium layer heights over ..	257	Charged particle, motion of, in a non-uniform field .. .	547
Atmospherics, whistling .. .	75, 88	Charged particles, motion of, near magnetic neutral planes .. .	282
		Chromium, dislocation substructures in	447
Barker, J. A.—		Collisions, inelastic, for small momentum transfers .. .	553
Statistical mechanics of almost one-dimensional systems. II .. .	259	Copper, absolute intensities of characteristic K α radiation from .. .	45
Bismuth, photoneutron angular distributions from .. .	420	Copper: paramagnetic resonance of Cu ²⁺ in borax beads .. .	543
Bok, B. J., Gollnow, H., Hindman, J. V., and Mowat, M.—		Corrigenda .. .	558
Radial velocities associated with selected emission nebulae in the Small Magellanic Cloud .. .	404	Counters, Geiger, proportional, and scintillation, efficiencies of .. .	200
Bolton, J. G., Gardner, F. F., and Mackey, M. B.—		Cresswell, G. R.—	
The Parkes catalogue of radio sources, declination zone -20° to -60° ..	340	Sodium layer heights over Antarctica	257
Bosworth, R. C. L., and Groden, C. M.—		<i>See also</i> Mather, K. B. .. .	373
Optimum thermal efficiency in counter-current heat exchangers .. .	37	Crouchley, J.—	
Thermal properties of systems exhibiting optimum countercurrent heat exchange .. .	26	A study of whistling atmospherics. IV. Comparison of observations at widely spaced stations .. .	75
Bowman, G. G.—		V. Dispersion .. .	88
Ionospheric irregularities and high-multiple reflections .. .	480	Cunningham, J.—	
Bowman, G. G., and Mainstone, J. S.—		Complex singularities in production amplitudes .. .	161
Geomagnetic and ionospheric effects at Brisbane following the nuclear explosion on July 9, 1962 .. .	409	Inelastic collisions for small momentum transfers .. .	553
Buchdahl, H. A.—		Currents, telluric, at conjugate points	373
<i>See</i> Tassie, L. J. .. .	431		
Burley, S. P.—		Duncan, R. A.—	
Paramagnetic resonance of Cu ²⁺ and Ti ³⁺ ions in borax beads .. .	543	Luni-solar variations in the ionosphere	50
The allowed and forbidden transitions in the paramagnetic resonance of the manganese ion in trigonal sites in apatite and smithsonite .. .	537	Elastic constants of a lattice, temperature dependence of .. .	524
		Elastic moduli, dynamic, and internal friction of solids, mechanical impulse method for determining .. .	8
		Electrons, diffusion in air .. .	307

	PAGE		PAGE
Electrons in carbon dioxide, measurement of Townsend's energy factor for ..	462	Interactions, three-particle, integral equations for amplitudes of ..	440
Ellis, D. E.—		Ionosphere: aspect-sensitive reflections from irregularities in the <i>F</i> region ..	490
<i>See</i> Burrows, K. M.	418	Ionosphere: effects following nuclear explosion	409
Ellis, G. R. A.—		Ionosphere: irregularities and high-multiple reflections	480
On external radio emission from the Earth's outer atmosphere ..	63	Ionosphere, luni-solar variations in ..	50
Ellyett, C. D., and Roth, K. W.—			
Vela-Puppis meteor shower activity	505	Jory, R. L.—	
Energy factor, Townsend's, for electrons in carbon dioxide	462	<i>See</i> Rees, J. A.	307
Energy, free, of a lattice, anharmonic contributions to	269		
Explosion, nuclear, on July 9, 1962, geomagnetic and ionospheric effects at Brisbane of	409	Kelly, J. C.—	
		<i>See</i> Burrows, K. M.	418
Fitzgerald, L. M.—		Komarov, V. V., and Popova, Anna M.—	
The effect of wave-damping on the surface velocity of water in a wind tunnel	184	Integral equations for three-particle interaction amplitudes in the non-relativistic case	440
Forces, non-central, two-body bound state and scattering with	1	Krishnan, T.—	
Forces, radiation-pressure, produced by sound fields	389	<i>See</i> Labrum, N. R.	323
Francey, J. L. A.—			
Diffusion of meteor trails in the Earth's magnetic field	315	Labrum, N. R., Krishnan, T., Payten, W. J., and Harting, E.—	
Gardner, F. F.—		Fan-beam observations of radio sources at 21 cm wavelength	323
<i>See</i> Bolton, J. G.	340	Lasich, W. B.—	
Gauss, E. J.—		<i>See</i> Burton, C. H.	175
<i>See</i> Mather, K. B.	373	Lattice, free energy of, anharmonic contributions to	269
Geomagnetism: effects on geomagnetic micropulsations following nuclear explosion	409	Lead, photoneutron angular distributions from	420
