

Volume 61 • Issue 1 • Journal papers • 2021

CONTENTS

BUSINESS

- Are bonds the answer to managing environmental liabilities?
S. Cawrse, D. Pepicelli, N. Panagopoulos, P. Sapa and D. Broadbridge 1–11
- COVID-19 smashing the stigma in mental health – a strategic blueprint for change/support
A. Feringa and N. Wentzel 12–15
- Australia–Asia power link: environmental and cost assessment
J. Gordonnat and J. Hunt 16–24
- Solar driven produced water treatment for beneficial uses
R. Gunness, H. Wee, R. Lee, L. N. Nguyen and L. D. Nghiem 25–32
- Environmental considerations for decommissioning
K. Hughes, F. I. J. Hisne and L. Y. Su 33–41
- Net zero 2020
I. MacDougall, O. Glade-Wright, B. Gove and T. Berkinshaw 42–47
- Co-creation of knowledge – an effective mechanism for managing decommissioning stakeholders
A. Tung 48–57
- Two companies collaborating to make real safety improvements: Arrow Energy, Shell QGC and the Queensland coal seam gas industry
M. L. Zaunbrecher, T. Johnston and R. Wood 58–69

ENGINEERING

- Preparing for subsea source control response and optimising timelines – IOGP Reports 592 and 594
A. Best and P. Brenan 70–76
- Minimising the risk of hydrogen embrittlement (HE) and hydrogen assisted stress cracking (HASC) within steel lifting products used in the marine environment
B. Burgess 77–82
- A complementary method of assessing clay stabilisers used in hydraulic fracturing applications
J. Dupont, J. Dawson and R. Mitchell 83–88
- Characterising the application of horizontal wells and indirect hydraulic fracturing for improved coal seam gas drainage
R. L. Johnson, Jr, S. Cheong and A. Farley 89–105
- Improved modelling of pressure-dependent permeability behaviour in coal based on a new workflow of petrophysics, hydraulic fracturing and reservoir simulation
H. M. Ramanandraibe, A. S. Ribeiro, R. Johnson, Jr and Z. You 106–117
- CO₂-EOR+ in Australia: achieving low-emissions oil and unlocking residual oil resources
E. Tenthorey, I. Taggart, A. Kalinowski and J. McKenna 118–131
- Landing with confidence and accuracy in a big bore subsea gas producer – an integrated approach for setting a critical casing point in the Jansz-lo field development
L. Thomas, M. Waugh, M. Thornberry, H. Wang, H. Wang, F. Hafezi, J. Dolan and A. Ali 132–145

GEOSCIENCE

Reducing the risk of CO ₂ storage projects through cost effective reservoir characterisation: application of digital core analysis to a CO ₂ injection reservoir <i>M. Bagheri, M. Knackstedt, T. Dance and M. Raab</i>	146–162
Hydrogen in Australian natural gas: occurrences, sources and resources <i>C. J. Boreham, D. S. Edwards, K. Czado, N. Rollet, L. Wang, S. van der Wielen, D. Champion, R. Blewett, A. Feitz and P. A. Henson</i>	163–191
The Bamaga Basin: a frontier play in a non-frontier location <i>W. S. Fischer</i>	192–204
Implications of thin laminations on pore structure of marine shale reservoir: Goldwyer Formation case study from Western Australia <i>M. A. Iqbal, R. Rezaee, G. Smith and P. P. Mandal</i>	205–215
Sample preparation for rock wettability studies via atomic force microscopy <i>N. A. Mitiurev, M. Verrall, A. A. Ivanova, A. Keshavarz and S. Iglaue</i>	216–223
Barnicarndy Graben, southern Canning Basin: stratigraphy defined by the Barnicarndy 1 stratigraphic well <i>L. Normore, P. W. Haines, L. K. Carr, P. Henson, Y. Zhan, M. T. D. Wingate, Y. Y. Zhen, Y. Lu, S. Martin, D. Kelsey, H. Allen and I. Fielding</i>	224–235
The Neoproterozoic Gillen Formation, Amadeus Basin, central Australia: an intra-salt petroleum system and viable exploration target? <i>P. S. Plummer</i>	236–252
Petrophysical and geochemical interpretations of well logs from the pre-Carboniferous succession in Barnicarndy 1, Canning Basin, Western Australia <i>L. Wang, D. S. Edwards, A. Bailey, L. K. Carr, C. J. Boreham, E. Grosjean, L. Normore, J. Anderson, A. J. M. Jarrett, S. MacFarlane, C. Southby, C. Carson, K. Khider, P. Henson, P. Haines and M. Walker</i>	253–270
Velocity anomalies and out-of-plane reflections in Barnicarndy 1, Canning Basin <i>Y. Zhan</i>	271–290
