

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 49, Issue 12, 2009, 1053–1131

A bromochloromethane formulation reduces enteric methanogenesis in cattle fed grain-based diets

N. W. Tomkins, S. M. Colegate and R. A. Hunter 1053–1058

Use of supplements and variation in the stocking rate in cow–calf systems on temperate pastures in Chile: a simulation approach

A. R. Catrileo, P. M. Toro, C. D. Aguilar and R. Vera 1059–1067

A technique for sampling blood from cattle during transportation

A. J. Parker, C. J. Coleman and L. A. Fitzpatrick 1068–1070

Interannual variation in pasture growth rate in Australian and New Zealand dairy regions and its consequences for system management

D. F. Chapman, B. R. Cullen, I. R. Johnson and D. Beca 1071–1079

Heritability of feed intake in grazing Merino ewes and the genetic relationships with production traits

N. M. Fogarty, E. Safari, S. I. Mortimer, J. C. Greeff and S. Hatcher 1080–1085

Lambing season and fertility of fat-tailed ewes under an extensive production system are associated with liveweight and body condition around mating

A. K. Esmailizadeh, O. Dayani and M. S. Mokhtari 1086–1092

Lack of response to garlic fed at different dose rates for the control of *Haemonchus contortus* in Merino wether lambs

V. J. Strickland, J. S. Fisher, W. T. Potts and G. W. Hepworth 1093–1099

Effects of weaner nutrition on sire and flock rankings: a re-analysis of historical data

B. J. McGuirk 1100–1104

Measures of growth and feed efficiency and their relationships with body composition and carcass traits of growing pigs

P. F. Arthur, L. R. Giles, G. J. Eamens, I. M. Barchia and K. J. James 1105–1112

Ractopamine supplementation increases lean deposition in entire and immunocastrated male pigs

K. L. Moore, F. R. Dunshea, B. P. Mullan, D. P. Hennessy and D. N. D'Souza 1113–1119

Effects of a synthetic gonadotrophin-releasing hormone agonist, leuprolide, on rut-associated events in male red deer

G. K. Barrell, S. C. T. Schaafsma, M. J. Ridgway, M. Wellby and L. A. Miller 1120–1124

Long axis heat distribution in a tunnel-ventilated broiler house equipped with an evaporative pad cooling system

M. Dağtekin, C. Karaca and Y. Yildiz 1125–1131
