

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 54, Issue 8, 2014, 981–1108

The leptin receptor is expressed in the Leydig cells of Merino rams, but its expression is not affected by long-term differences in the plane of nutrition

J. Gil, P. Genovese, I. Sartore, A. Bielli, F. Montossi and C. Viñoles 981–986

Polymorphisms of *LHP* and *GnRHR* genes and their association with the number of embryos recovered in goats

M. Z. Fu, G. Li and Z. Q. Zhou 987–991

Molecular cloning, expression analysis and developmental changes in ovarian follicles of goose 3 β -hydroxysteroid dehydrogenase 1

Yingying Zhang, Hehe Liu, Mingjun Yang, Shengqiang Hu, Liang Li and Jiwen Wang 992–998

Optimising a crossbreeding production system using three specialised imported swine breeds in south-western China

Guoqing Tang, Ruipei Yang, Jia Xue, Tianfei Liu, Zhiyao Zeng, Anan Jiang, Yanzhi Jiang, Mingzhou Li, Li Zhu, Lin Bai, Surong Shuai and Xuwei Li 999–1007

The effect of peri-conceptual grazing of live pasture on fetal numbers in unsynchronised ewes

S. M. Robertson, B. J. King, M. B. Allworth, J. Rummery and M. A. Friend 1008–1015

Effects of organic and inorganic selenium supplementation during late pregnancy on colostrum and serum Se status, performance and passive immunity in Merghoz goats

R. Kachuee, M. Moeini and M. Souri 1016–1022

Plantain (*Plantago lanceolata* L.) and perennial ryegrass (*Lolium perenne* L.) as pregnancy and lactation feed for ewes joined at 8 months of age

M. C. Raeside, Z. N. Nie, M. Robertson, D. L. Partington and R. Behrendt 1023–1029

Effect of processing method on *in sacco* ruminal degradability of organic matter and nitrogen from canola seeds and *in vitro* intestinal nitrogen digestion of the *in sacco* residue

S. A. Gunter, T. L. Springer, C. A. Loest and J. J. Goldman 1030–1038

Biological effect of tannins from different vegetal origin on microbial and fermentation traits *in vitro*

R. Rodríguez, G. de la Fuente, S. Gómez and M. Fondevila 1039–1046

Effects of rice straw versus wheat straw as ingredients in a total mixed ration on intake, digestibility and growth of Holstein heifers

R. E. Rauch, G. Cun, G. A. Nader and P. H. Robinson 1047–1055

Ruminal pH and whole-tract digestibility in dairy cows consuming fresh cut herbage plus concentrates and conserved forage fed either separately or as a partial mixed ration

J. S. Greenwood, M. J. Auldist, L. C. Marett, M. C. Hannah, J. L. Jacobs and W. J. Wales 1056–1063

Evaluation of fermented *Alisma canaliculatum* with probiotics as potential feed additives for finishing Hanwoo (*Bos taurus coreanae*) steers

H. S. Mun, S. T. Ahmed, J. A. Hwang, Y. J. Kim and C. J. Yang 1064–1074

Image-processing technique to measure pig activity in response to climatic variation in a pig barn

A. Costa, G. Ismayilova, F. Borgonovo, S. Viazzi, D. Berckmans and M. Guarino 1075–1083

Acoustic-reward learning as a method to reduce the incidence of aggressive and abnormal behaviours among newly mixed piglets

G. Ismayilova, L. Sonoda, M. Fels, R. Rizzi, M. Oczak, S. Viazzi, E. Vranken, J. Hartung, D. Berckmans and M. Guarino 1084–1090

Effect of season on microbial and chemical characteristics of milk and yoghurt from sheep

Razzagh Mahmoudi, Reza Norian, Mohammad Reza Pajohi-Alamoti and Javad Aliakbarlu 1091–1094

Isolation and characterisation of collagen from elk antler velvet

Do Hun Lee, Heek Hong, Gaurav Lodhi, Sun Hee Cheong, Pyo Jam Park, Tiejun Hu, Kim Sangwoo, Sang Ho Moon and Byong Tae Jeon 1095–1101

Principles for maximising operator efficiency and return on investment in rotary dairies

J. P. Edwards, J. G. Jago and N. Lopez-Villalobos 1102–1108
