CONTENTS Volume 58, Issue 8, 2018, 1375–1565

ANIMAL PRODUCTION 2018: FOSTERING INNOVATION THROUGH THE VALUE CHAIN 32ND BIENNIAL CONFERENCE OF THE AUSTRALIAN SOCIETY OF ANIMAL PRODUCTION (ASAP)

Preliminary Material i–xviii

Consumer demands and welfare

Key determinants of pig welfare: implications of animal management and housing design on livestock welfare

P. H. Hemsworth 1375–1386

Developing a heat load index for lactating dairy cows

J. C. Lees, A. M. Lees and J. B. Gaughan 1387–1391

Maintaining the appeal of Australian lamb to the modern consumer

S. M. Fowler, J. M. Hoban, G. Melville, D. W. Pethick, S. Morris and D. L. Hopkins 1392–1398

A systems approach to improving livestock productivity

Forage management and concentrate supplementation effects on performance of beef calves

J. M. B. Vendramini and P. Moriel 1399–1403

Heat stress: impact on livestock well-being and productivity and mitigation strategies to alleviate the negative effects

J. S. Johnson 1404–1413

Variation in residual feed intake depends on feed on offer

W. S. Pitchford, D. S. Lines and M. J. Wilkes 1414–1422

Benefits and costs of grazing various proportions of perennial ryegrass and chicory for dairy production

C. D. Lewis, C. K. M. Ho, J. L. Jacobs and B. Malcolm 1423–1431

Opportunities for productivity improvements in extensive livestock systems

Palates link soil and plants with herbivores and humans

F. D. Provenza 1432–1437

Practical implications of mineral and vitamin imbalance in grazing sheep

D. G. Masters 1438–1450

Grazing pressure, land condition, productivity and profitability of beef cattle grazing buffel grass pastures in the subtropics of Australia: a modelling approach

M. K. Bowen and F. Chudleigh 1451–1458

Sheep residual feed intake and feeding behaviour: are ‘nibblers’ or ‘binge eaters’ more efficient?

S. K. Muir, N. Linden, M. Knight, R. Behrendt and G. Kearney 1459–1464

Reproduction

Using temporal associations to determine postpartum oestrus in tropical beef cows

N. J. Corbet, K. P. Patison, D. J. Menzies and D. L. Swain 1465–1469

Cumulative reproductive performance effect on overall lifetime productivity in Merino sheep

J. S. Richards, M. A. Sladek and G. J. Lee 1470–1480

Sheep nutrition

The influence of the level of ewe gestation nutrition and lamb finishing diet on long-chain polyunsaturated fat concentration, antioxidant and mineral status, and colour stability of meat

E. N. Ponnampalam, R. Behrendt, M. G. Kerr, M. C. Raeside and M. B. McDonagh 1481–1487

Continued on next page

Meat science

Preliminary estimation of fat depth in the lamb short loin using a hyperspectral camera

*S. Rahman, P. Quin, T. Walsh, T. Vidal-Calleja, M. J. McPhee, E. Toohey
and A. Alempijevic* 1488–1496

Big data – what's the value and its potential?

Data capture through Australian beef cattle and meat sheep value chains: opportunities for enhanced feedback to commercial producers

S. Z. Y. Guy, D. J. Brown and R. G. Banks 1497–1503

Animal health

A mathematical model to predict the risk arising from the pasture infectivity of four nematode species in Australia

Y. C. S. M. Laurenson and L. P. Kahn 1504–1514

Calcium and magnesium status of pregnant ewes grazing southern Australian pastures

*J. E. Hocking Edwards, D. G. Masters, E. Winslow, S. Hancock, A. N. Thompson, G. Refshauge,
S. R. McGrath, S. M. Robertson, M. S. Bhanugopan and M. A. Friend* 1515–1521

Profit drivers in animal industries

Impact of sire on the lifetime susceptibility of their progeny to breech strike in a Mediterranean environment

J. C. Greeff, A. C. Schlink and L. J. E. Karlsson 1522–1530

Evaluating the economics of short-term partial mixed ration feeding decisions for dairy cows

C. K. M. Ho, W. J. Wales, M. J. Auldist and B. Malcolm 1531–1537

Sheep health

Seed contamination in sheep: new investigations into an old problem

J. E. Kelly, J. C. Quinn, P. Loukopoulos, J. C. Broster, K. Behrendt and L. A. Weston 1538–1544

Sheep economics and production

Ewe culling and retention strategies to increase reproductive rates in Merino sheep

S. Hatcher, S. Dominik, J. S. Richards, J. Young, J. Smith, R. Tearle, F. D. Brien and N. Hermann 1545–1551

Grazing systems and the environment

Development of a system to rank perennial ryegrass cultivars according to their economic value to dairy farm businesses in south-eastern Australia

C. M. Leddin, J. L. Jacobs, K. F. Smith, K. Giri, B. Malcolm and C. K. M. Ho 1552–1558

Innovation in the processing sector

The value of objective online measurement technology: Australian red meat-processor perspective

E. S. Toohey, R. van de Ven and D. L. Hopkins 1559–1565
