AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

A medium for the publication of results of original scientific research in the biological sciences with special emphasis on the experimental phases. Volumes 1 to 5 issued as the Australian Journal of Scientific Research, Series B: Biological Sciences.

Published by the Commonwealth Scientific and Industrial Research Organization. Issued six times a year, £2 (\$A4) per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of Professor W. P. Rogers (Chairman), Mr. A. E. Scott (Editor-in-Chief), Professor N. S. Bayliss, Dr. M. F. Day, Professor R. Street, and Professor J. S. Turner.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee appointed by the Board of Standards and consisting of Mr. A. E. Scott (Editor-in-Chief and Chairman), Dr. M. F. Day, Professor C. W. Emmens, Professor R. N. Robertson, Professor W. P. Rogers, and Professor J. S. Turner.

All enquiries and manuscripts should be forwarded to:

The Editor-in-Chief,
Editorial and Publications Section, CSIRO,
Sixth Floor,
372 Albert Street,
East Melbourne, C.2, Victoria

CONTENTS

NUMBER 1, FEBRUARY 1965

	PAGE
Ammonia—an early stable product of nitrogen fixation by soybean root nodules. By F. J. Bergersen	1
Sodium and potassium uptake by seedlings of <i>Hordeum vulgare</i> . By M. G. Pitman	10
Quantitative studies of root development. I. The influence of nutrient concentration. By L. H. May, Fay H. Chapman, and D. Aspinall	25
Comparison of water potentials in leaves as measured by two types of thermocouple psychrometer. By H. D. Barrs	36
Physiology of sugar-cane. VII. Effects of temperature, photoperiod duration, and diurnal and seasonal temperature changes on growth and ripening. By K. T. Glasziou, T. A. Bull, M. D. Hatch, and P. C. Whiteman ..	53
Production and dispersal of ascospores in <i>Eutypa armeniaca</i> . By W. J. Moller and M. V. Carter	67
Changes in pH associated with the application of ammonia and potassium hydroxide to diapausing eggs of <i>Teleogryllus commodus</i> (Walk.) (Orthoptera: Gryllidae). By T. W. Hogan	81
The effect of the oestrous cycle and of oestradiol on the breakdown of seminal glycerylphosphorylcholine by secretions of the rat uterus. By J. C. Wallace, G. M. Stone, and I. G. White	88
The effects of acute exposure to high temperatures on prenatal development in the mouse with particular reference to secondary vibrissae. By Pamela R. Pennycook	97
Variation in the concentration of lipids and some other constituents in the blood plasma of cows at various stages of lactation. By P. E. Hartmann and A. K. Lascelles	114
Interrelationships of erythrocyte characters and other characters of British and Zebu crossbred beef cattle. By J. V. Evans and H. G. Turner	124
Further studies of the metabolism of cystine in sheep. By A. M. Downes, L. F. Sharry, and A. R. Till	140
The multiple forms of ovine lactate dehydrogenase. By Mary Hinks and C. J. Masters	154
The fractionation of β -histone from chicken erythrocyte nuclei. By J. T. Bellair and C. M. Mauritzen	160
The ultracentrifugation of doughs made from wheat flour. By C. M. Mauritzen and P. R. Stewart	173
<i>Short Communications</i>	
Coherence in <i>Eucalyptus</i> . By J. Hartley	190
An improved chromatographic separation of wheat gluten proteins. By C. W. Wrigley	391

NUMBER 2, APRIL 1965

	PAGE
Biochemical and structural correlations in isolated spinach chloroplasts under isotonic and hypotonic conditions. By D. Spencer and H. Unt	197
Effects of chelation and of certain cations on the mobility of foliar-applied ^{45}Ca in stock, broad bean, peas, and subterranean clover. By C. R. Millikan and B. C. Hanger	211
The effects of calcium and tris(hydroxymethyl)aminomethane on potassium uptake during and after the lag phase in red beet tissue. By R. F. M. Van Steveninck	227
Potassium retranslocation in seedlings of <i>Hordeum vulgare</i> . By H. Greenway and M. G. Pitman	235
Plant responses to saline substrates. IV. Chloride uptake by <i>Hordeum vulgare</i> as affected by inhibitors, transpiration, and nutrients in the medium. By H. Greenway	249
The velocity and pattern of assimilate translocation in wheat plants during grain development. By I. F. Wardlaw	269
Effect of detaching culms on seed development in <i>Phalaris</i> . By J. R. McWilliam and I. F. Wardlaw	283
Physical environment and symbiotic nitrogen fixation. II. Root temperature effects on the relative nitrogen assimilation rate. By A. H. Gibson ..	295
Temperature-sensitive, vitamin-requiring mutants of <i>Arabidopsis thaliana</i> . By J. Langridge	311
Infra-specific variation in wax on leaf surfaces. By D. M. Hall, A. I. Matus, J. A. Lamberton, and H. N. Barber	323
Host-controlled modification of <i>Rhizobium</i> bacteriophage. By E. A. Schwinghamer	333
An attempt to produce hyperphagia in sheep by electrical damage to the hypothalamus. By E. G. Holmes and F. J. Fraser	345
The chemical composition of wool. II. Analysis of the major histological components produced by ultrasonic disintegration. By J. H. Bradbury, G. V. Chapman, and N. L. R. King	353
Studies on ovalbumin. II. The formation and properties of S-ovalbumin, a more stable form of ovalbumin. By M. B. Smith and Joan F. Back ..	365
The variation in the composition of milk during successive stages of milk removal from the mammary gland of the cow. By D. D. S. Mackenzie and A. K. Lascelles	379

NUMBER 2, APRIL 1965 (*Continued*)

	PAGE
Fungal cellulases. XI. The nature of the inductive process for aryl β -glucosidase in <i>Stachybotrys atra</i> . By M. A. Jermyn	387
Fungal cellulases. XII. Relation of the amino acid analyses of the mycelium of <i>Stachybotrys atra</i> and of its β -glucosidase to the <i>S</i> -aminoethyl-L-cysteine effect on induction. By M. A. Jermyn	417
Fungal cellulases. XIII. Specificity of the induction of the β -glucosidase of <i>Stachybotrys atra</i> . By M. A. Jermyn	425

Short Communications

Identification of Cherry and Hageman's "compound XI" from maize as chelidonic acid. By M. R. Atkinson and Gail Eckermann	437
The response of ovine plasma fatty acids to prolonged protein depletion. By J. M. Connellan and C. J. Masters	441
Fatty acid components of ovine erythrocyte lipids. By J. M. Connellan and C. J. Masters	445

NUMBER 3, JUNE 1965

Translocation of labelled assimilates in the soybean. IV. Some effects of low temperature on translocation. By Stella L. Thrower	449
Reducing inflorescence formation by shading individual sultana buds. By P. May	463
Some properties of a plant growth inhibitor present in xylem sap of woody species. By R. M. Davison	475
An apparatus for measuring water potentials in the xylem of intact plants. By A. R. G. Lang and H. D. Barrs	487
The effect of localized pressure on the growth of the maize radicle. By K. P. Barley	499
Plant response to saline substrates. V. Chloride regulation in the individual organs of <i>Hordeum vulgare</i> during treatment with sodium chloride. By H. Greenway and D. A. Thomas	505
Plant response to saline substrates. VI. Chloride, sodium, and potassium uptake and distribution within the plant during ontogenesis of <i>Hordeum vulgare</i> . By H. Greenway, A. Gunn, M. G. Pitman, and D. A. Thomas	525
Ion exchange and diffusion in roots of <i>Hordeum vulgare</i> . By M. G. Pitman	541
The location of the Donnan free space in disks of beetroot tissue. By M. G. Pitman	547

NUMBER 3, JUNE 1965 (*Continued*)

	PAGE
Silage bacteriology. II. Influence of temperature differences on the composition of the lactic microflora. By G. W. Lanigan	555
On the permeability of <i>Thiobacillus neapolitanus</i> to thiosulphate. By P. A. Trudinger	563
Temperature-dependent heterosis in maize. By J. R. McWilliam and B. Griffing	569
The response to artificial selection due to autosomal genes of large effect. I. Changes in gene frequency at an additive locus. By B. D. H. Latter ..	585
Effects of finite size on selection advance in simulated genetic populations. By J. L. Gill	599
Variation of scutellar bristles in <i>Drosophila</i> . IV. Effects of selection. By A. S. Fraser, W. Scowcroft, R. Nassar, H. Angeles, and G. Bravo	619
The effect of X-rays on gonocytes in the testis of the rat. By C. S. Sapsford ..	643
The synthesis of DNA and nuclear protein by gonocytes in the testes of normal and X-irradiated rats. By C. S. Sapsford	653
Serum transferrin <i>D</i> alleles in Australian cattle. By G. C. Ashton	665
The growth and composition of wool. III. Variations in the sulphur content of wool. By P. J. Reis	671
Crimp in wool: cortical segmentation and tensile properties of well-crimped and abnormally crimped fibres of Merino wool. By R. E. Chapman ..	689

Short Communications

The interrelations between root formation and anthocyanin synthesis in red maple cuttings: effects of gibberellic acid, CCC, and 8-azaguanine. By E. P. Bachelard	699
The response of sheep skin to topically applied substances. By R. E. Chapman and B. F. Short	703
Earthworm adenosine triphosphatase: a temperature study of a poikilotherm enzyme. By R. L. Hancock	707

NUMBER 4, AUGUST 1965

The supply of photosynthetic assimilates to the grain from the flag leaf and ear of wheat. By D. J. Carr and I. F. Wardlaw	711
The physiology of growth in the wheat plant. II. The dynamics of leaf growth. By R. F. Williams and A. H. G. C. Rijken	721
Inflorescence initiation in <i>Lolium temulentum</i> L. VII. The spectral dependence of induction. By L. T. Evans, H. A. Borthwick, and S. B. Hendricks ..	745

NUMBER 4, AUGUST 1965 (*Continued*)

	PAGE
Plant response to saline substrates. VII. Growth and ion uptake throughout plant development in two varieties of <i>Hordeum vulgare</i> . By H. Greenway	763
The physiology of sugar-cane. VIII. Diurnal fluctuations in the activity of soluble invertase in elongating internodes. By C. R. Slack	781
Ionic relations of cells of <i>Chara australis</i> . X. Effects of bicarbonate ions on electrical properties. By A. B. Hope	789
Studies on phytoalexins. VII. Chemical stimulation of pisatin formation in <i>Pisum sativum</i> L. By Dawn R. Perrin and I. A. M. Cruickshank	803
Studies on phytoalexins. VIII. The effect of some further factors on the formation, stability, and localization of pisatin <i>in vivo</i> . By I. A. M. Cruickshank and Dawn R. Perrin	817
Studies on phytoalexins. IX. Pisatin formation by cultivars of <i>Pisum sativum</i> L. and several other <i>Pisum</i> species. By I. A. M. Cruickshank and Dawn R. Perrin	829
Analyses of variance of diallel crosses in split-plot experiments. By C. E. Gates and the late A. N. Wilcox	837
Variation of scutellar bristles in <i>Drosophila</i> . V. Components of selection advance. By R. A. Fraser and W. R. Scowcroft	851
Variation of scutellar bristles in <i>Drosophila</i> . VI. Dominance and epistasis. By A. S. Fraser	861
The use of dimethyl sulphoxide, glycerol, and reconstituted skim milk for the preservation of ram spermatozoa. I. The tonicity and toxicity of dimethyl sulphoxide and reconstituted skim milk at 30 and 5°C. By R. C. Jones ..	877
The use of dimethyl sulphoxide, glycerol, and reconstituted skim milk for the preservation of ram spermatozoa. II. The influence of diluent composition and processing time during freezing to -79°C with dimethyl sulphoxide or glycerol or both compounds. By R. C. Jones	887
Influence of equilibration, freezing rate, method of dilution, and diluent on the survival of deep-frozen bull spermatozoa. By I. C. A. Martin	901
The absorption of lactic acid from the reticulo-rumen of the sheep. By V. J. Williams and D. D. S. Mackenzie	917
Studies on chitin. VI. The nature of α - and β -chitins. By R. H. Hackman and Mary Goldberg	935

Short Communications

Acquired immunological unresponsiveness to bovine plasma albumin in mice. By W. R. Sobey and Jeanne M. Magrath	947
--	-----

NUMBER 5, OCTOBER 1965

	PAGE
Effects of chelation and of various cations on the mobility of foliar-applied ^{65}Zn in subterranean clover. By C. R. Millikan and B. C. Hanger ..	953
The sugar content of cell walls and intercellular spaces in sugar-cane stems and its relation to sugar transport. By J. S. Hawker	959
Cytogenetical studies in wheat. I. Monosomic analysis of leaf rust resistance in the cultivars Uruguay and Transfer. By R. A. McIntosh, E. P. Baker, and C. J. Driscoll	971
Some properties of a tobacco ringspot virus isolate from South Australia. By J. W. Randles and R. I. B. Francki	979
Transpiration and the selective uptake of potassium by barley seedlings (<i>Hordeum vulgare</i> cv. Bolivia). By M. G. Pitman	987
A Monte Carlo evaluation of predicted selection response. By J. L. Gill ..	999
The response to artificial selection due to autosomal genes of large effect. II. The effects of linkage on limits to selection in finite populations. By B. D. H. Latter	1009
The effect of starvation on the uptake of the precursors of milk fat by the bovine mammary gland. By P. E. Hartmann and A. K. Lascelles ..	1025
The movement of solutes across the epithelium of the ducts and cisterns in the mammary gland of the ewe. By D. D. S. Mackenzie and A. K. Lascelles	1035
The surface waxes of the sultana vine (<i>Vitis vinifera</i> cv. Thompson Seedless). By F. Radler	1045
Sources of error in two-wavelength microspectrophotometry. By K. W. Cleland	1057

Short Communications

Supernumerary chromosomes in the marsupial <i>Schoinobates volans</i> (Kerr). By D. L. Hayman and P. G. Martin	1081
--	------

NUMBER 6, DECEMBER 1965

	PAGE
Transport of ^{45}Ca and ^{65}Zn through collapsed petioles of calcium-deficient subterranean clover (<i>Trifolium subterraneum</i> L.). By C. R. Millikan and B. C. Hanger	1083
Protein nitrogen content and phosphorylative activity of apple fruits during ripening and senescence. By T. L. Lewis and D. Martin	1093
Photosynthesis in artificial communities of cotton plants in relation to leaf area. I. Experiments with progressive defoliation of mature plants. By L. J. Ludwig, T. Saeki, and L. T. Evans	1103
X-ray induced variation in <i>Medicago polymorpha</i> var. <i>vulgaris</i> . By R. D. Brock and W. D. Andrew	1119
The coralloid roots of <i>Macrozamia communis</i> L. Johnson. By W. Wittmann, F. J. Bergersen, and G. S. Kennedy	1129
Nitrogen fixation in the coralloid roots of <i>Macrozamia communis</i> L. Johnson. By F. J. Bergersen, G. S. Kennedy, and W. Wittmann	1135
The effect of water stress on [^{14}C]sucrose transport in bean plants. By Z. Plaut and Leonora Reinhold	1143
Influence of sex on selection. I. Contribution of sex-linked genes. By B. Griffing	1157
Selection and linkage in simulated genetic populations. By J. L. Gill ..	1171
Experimental appraisal of certain procedures for the classification of data. By R. T. Lange, N. S. Stenhouse, and Christina E. Offer	1189
Studies on reduced wool. V. A comparison of the two major components. By E. O. P. Thompson and I. J. O'Donnell	1207
Studies on reduced wool. VI. Comparison of peptides containing <i>S</i> -carboxymethylcysteinyl residues in different protein fractions. By I. J. O'Donnell and E. O. P. Thompson	1227

Short Communications

Changes in levels of salivary sodium and potassium associated with the mustering of beef cattle. By T. B. Post	1235
The absorption of subcutaneously implanted testosterone propionate from the ear of the sheep. By W. B. Osborne	1241
Nicotinamide content of insects. By G. B. Kitto and M. H. Briggs	1245
Index to Volume 18.. .. .	1249
