

## Subject Index

- Agglutinins, invertebrate and plant, reaction with an arabinogalactan from wheat 149
- Amitraz metabolism in larvae of *Boophilus microplus* 141
- n-(9-Anthroyloxy) fatty acid fluorescent probes, uptake into lipid bilayers 447
- Apoproteins of the major lipoprotein of the yolk of hen's eggs 587
- Ascaris lumbricoides* allergens 459
- Atherosclerosis and pyridoxine 7
- ATP synthesized by sarcoplasmic reticulum 21
- Awassi ram, testicular and epididymal sperm numbers and related parameters in 257
- Bipectinata* complex: interspecific hybridization in *Drosophila* 197
- Boar, effects of bicarbonate on the respiration and glycolytic activity of spermatozoa 385
- Boophilus microplus*:
- Mechanisms of resistance to bromophos ethyl in 317
  - Metabolism of [ $^{14}\text{C}$ ]amitraz in larvae 141
- Bromophos-ethyl, mechanisms of resistance to, in *Boophilus microplus* 317
- Cattle:
- Artificial induction of lactation in cows and heifers 65, 187
  - Effect of 2-deoxy-D-glucose on ovarian function 183
  - Importance of prolactin and the milking stimulus in the artificial induction of lactation 187
- Cattle tick, *see Boophilus microplus*
- Cellulomonas*, isolation of a cotton wool degrading strain of 553
- Cryptorchidism of the rat testis 53
- Dexamethasone:
- Concentrations in ovine plasma during its intravenous infusion 247
  - Studies on intravenous infusion of, in sheep 373
- Drosophila*, interspecific hybridization in: the *bipectinata* complex 197
- Drosophila melanogaster*:
- Characterization of a temperature-sensitive female sterile mutant 73
  - Male recombination in dysgenic hybrids 303
- Echidna, *see Tachyglossus aculeatus*
- Eutherian and marsupial cell fusion and hybridization 293, 527
- Ewe:
- Activity of enzymes in the mucosal tissues and rinsings of the reproductive tract of the naturally cyclic ewe 345
  - Activity of enzymes of glycogen metabolism in the reproductive tract of the ewe at mating and during early pregnancy 355
  - Enzyme activities and protein and carbohydrate concentrations in cervical secretions at dioestrus in normal ewes and ewes with permanent phytoestrogenic infertility 241
  - $\alpha$ -Glucosidase activity in the reproductive tract 363
  - Hormone receptor levels and metabolic activity in the uterus 395
  - Inhibition of cholesterol biosynthesis in ovarian follicles *in vitro* by human chorionic gonadotrophin 405
  - Lactating, amino acid uptake by the mammary gland 123
  - Lactating, mammary glucose uptake in, and calculation of mammary blood flow 133
  - Lipid content of ovarian follicles in culture 621
  - Prostaglandin F in the fallopian tube secretion 275
  - Relation between patterns of ovarian follicle growth and ovulation rate 649
- See also sheep*
- Foetal growth in the mouse, effect of ovarian hormones on 641
- Flumethasone, measurement in the plasma and some effects on wool growth in Merinos 601
- Fusarium lateritium* isolates 93
- Gonadotrophin levels and ovarian development in the neonatal ewe lamb 267
- Haemoglobins, monotreme, oxygen binding of 327, 337
- Heifers, *see cattle*
- High-sulfur proteins of wool, heterogeneity and incomplete disulfide reduction in 219

- Human chorionic gonadotrophin,  
inhibition of cholesterol biosynthesis by, in  
ovine ovarian follicles *in vitro* 405
- Implantation in the mouse, pituitary hormone  
control of 657
- Kangaroos, glucose-6-phosphate  
dehydrogenase expression in tissues and  
cultured fibroblasts of 415
- Lactation, artificial induction of, in cows and  
heifers 65, 187
- Lactation in the sow, progesterone and  
corticosteroids in the initiation of 517
- Lactobacillus bulgaricus*, aerobic formation of  
acetate from pyruvate by 565
- Lamb, neonatal, gonadotrophin levels and  
ovarian development in 267
- Lipoprotein of the yolk of hen's eggs,  
apoproteins of 587
- Lolium multiflorum* endosperm in tissue  
culture 573
- Macropus eugenii*, immunological aspects of  
gestation in 173
- Macropus rufogriseus*, evidence for an absence  
of dosage compensation at the  
glucose-6-phosphate dehydrogenase locus in  
cultured cells of 425
- Marsupial and eutherian cell fusion and  
hybridization 293, 527
- Merinos, *see* sheep
- Metatherian sex chromosomes.  
VII, VIII 415, 425
- Methionine:  
Arterio-venous difference for the  
calculation of mammary blood  
flow 133  
Effect on activity of enzymes in the  
transulfuration pathway in sheep 105  
Effects of abomasal supplements of, on the  
wool follicles and skin of wheat-fed  
sheep 161
- Microcystis aeruginosa* bloom, isolation,  
characterization and pathology of the toxin  
from 209
- Mimosine and some chemically related  
compounds, comparative toxicities to  
mouse bone marrow cells in liquid  
culture 115
- Monotreme haemoglobins, oxygen binding  
of 327, 337
- Mouse:  
Bone marrow cells, comparative toxicities of  
mimosine and some chemically related  
compounds to 115  
Effects of ovarian hormones on foetal and  
placental growth 641  
Effects of reduced food intake on  
reproduction 629  
Myeloma anti-galactan protein, reaction  
with an arabinogalactan from  
wheat 149  
Pituitary hormone control of implantation  
in 657  
Mudjinbarry virus, an orbivirus related to  
Wallall virus isolated from midges from the  
Northern Territory 97
- Noogoora burr, *see* *Xanthium strumarium*
- Oestradiol regulation of hormone receptor  
levels and metabolic activity in the uterus of  
the ewe 395
- Ornithorhynchus anatinus* haemoglobins 327
- Ovalbumin:  
A correction and extension of the  
acetylated amino terminal  
sequence 443  
Amino acid sequences containing  
half-cystine residues 433
- Ovarian development and gonadotrophin  
levels in the neonatal ewe lamb 267
- Ovarian follicles, ovine:  
Growth, and ovulation rate 649  
Inhibition of cholesterol biosynthesis *in  
vitro* in, by human chorionic  
gonadotrophin 405  
Lipid content of, in culture 621
- Ovarian function of cattle, effect of  
2-deoxy-D-glucose on 183
- Ovarian hormones, effects on foetal and  
placental growth in the mouse 641
- Ovulation rate and ovarian follicle growth in  
sheep 649
- Pigs:  
Progesterone and corticosteroids in the  
initiation of lactation in 517  
Pituitary hormone control of implantation in  
the mouse 657  
Platypus, *see* *Ornithorhynchus anatinus*  
Placental growth in the mouse, effect of  
ovarian hormones on 641  
Progesterone and corticosteroids in the  
initiation of lactation in the sow 517

- Progesterone regulation of hormone receptor levels and metabolic activity in the uterus of the ewe 395
- Prolactin, importance of, in the artificial induction of lactation in cows 187
- Prostaglandin F in the fallopian tube secretion of the ewe 275
- Pseudomonas aeruginosa* strain PAO, transformation of, with bacteriophage and plasmid DNA 679
- Pyridoxine and atherosclerosis 7
- Rat:
- Effect of cryptorchidism of the testis 53
  - Effect of semi-starvation on the digestibility of food in young adult females 593
- RNA, ribosomal and plant viral 25
- Rye, physiologic differentiation of wheat stem rust on 545
- Sarcoplasmic reticulum, ATP synthesized by 21
- Sheep:
- Administration of flumethasone, its measurement in the plasma and some effects on wool growth 601
  - Amino acid uptake by the mammary gland of the lactating ewe 123
  - Dexamethasone concentrations in plasma during its intravenous infusion, its relation to the production of some endogenous hormones, and some of the effects on wool growth 247
  - Dexamethasone intravenously infused 373
  - Effect of diet and methionine loading on activity of enzymes in the transsulfuration pathway 105
  - Lipid content of ovarian follicles in culture 621
  - Mammary glucose uptake in the lactating ewe and the use of methionine arterio-venous difference for the calculation of mammary blood flow 133
  - Plasma thyroxine concentration 39
  - Plasma tryptophan and melatonin content in penned sheep 49
  - Quantitative development of adipose tissue in foetuses 489
  - Relation between patterns of ovarian follicle growth and ovulation rate 649
  - Response to partial selection on clean fleece weight in South Australian strong-wool Merinos 667
  - Ultrastructural development of adipose tissue in foetuses 505
  - Wheat-fed, effects of abomasal supplements of methionine on the wool follicles and skin of 161
  - Sow, progesterone and corticosteroids in the initiation of lactation in 517
- Tachyglossus aculeatus* haemoglobins 327, 337
- Tammar wallaby, *see Macropus eugenii*
- Thyroxine concentration in plasma of grazing sheep 39
- Tick, *see Boophilus microplus*
- Transsulfuration pathway in sheep, effect of diet and methionine loading on activity of enzymes of 105
- Wallaby, tammar, *see Macropus eugenii*
- Wheat arabinogalactan, reaction with some invertebrate and plant agglutinins and a mouse myeloma anti-galactan protein 149
- Wheat stem rust on rye, physiologic differentiation of 545
- Wool fibres, high-and low-crimp, fibril: matrix arrangements in 231
- Wool high-sulfur proteins, heterogeneity and incomplete disulfide reduction in 219
- Xanthium strumarium*, allozyme uniformity within and variation between races of 283
