Fig. S1. Changes in leaf area (LA) with storage time for different species. D1, D2, etc. represent Day 1, Day 2, etc. Figure was prepared using 'ggline()' function in R.
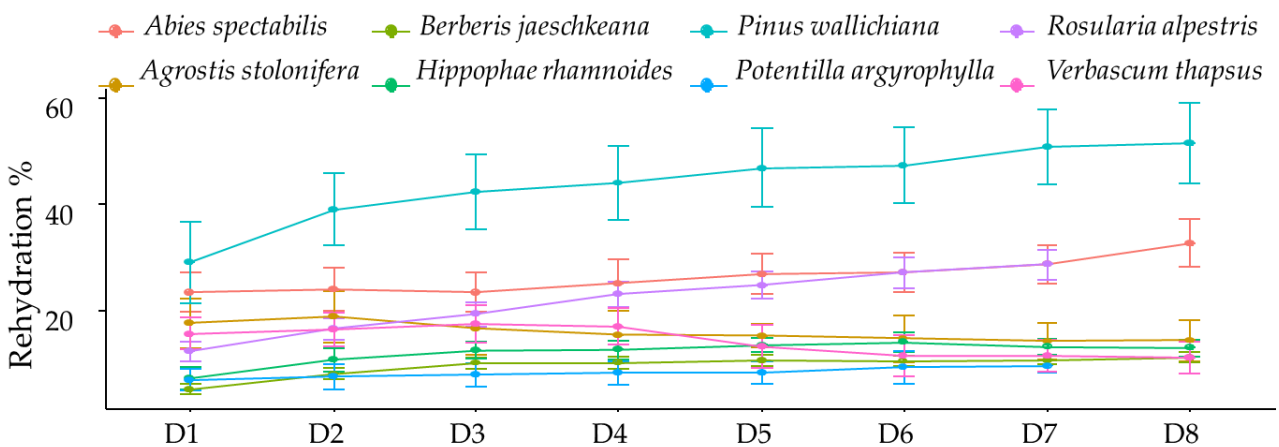

Fig. S2. Changes in leaf rehydration percentage with storage time for different species. D1, D2, etc. represent Day 1, Day 2, etc. Figure was prepared using 'ggline()' function in R.
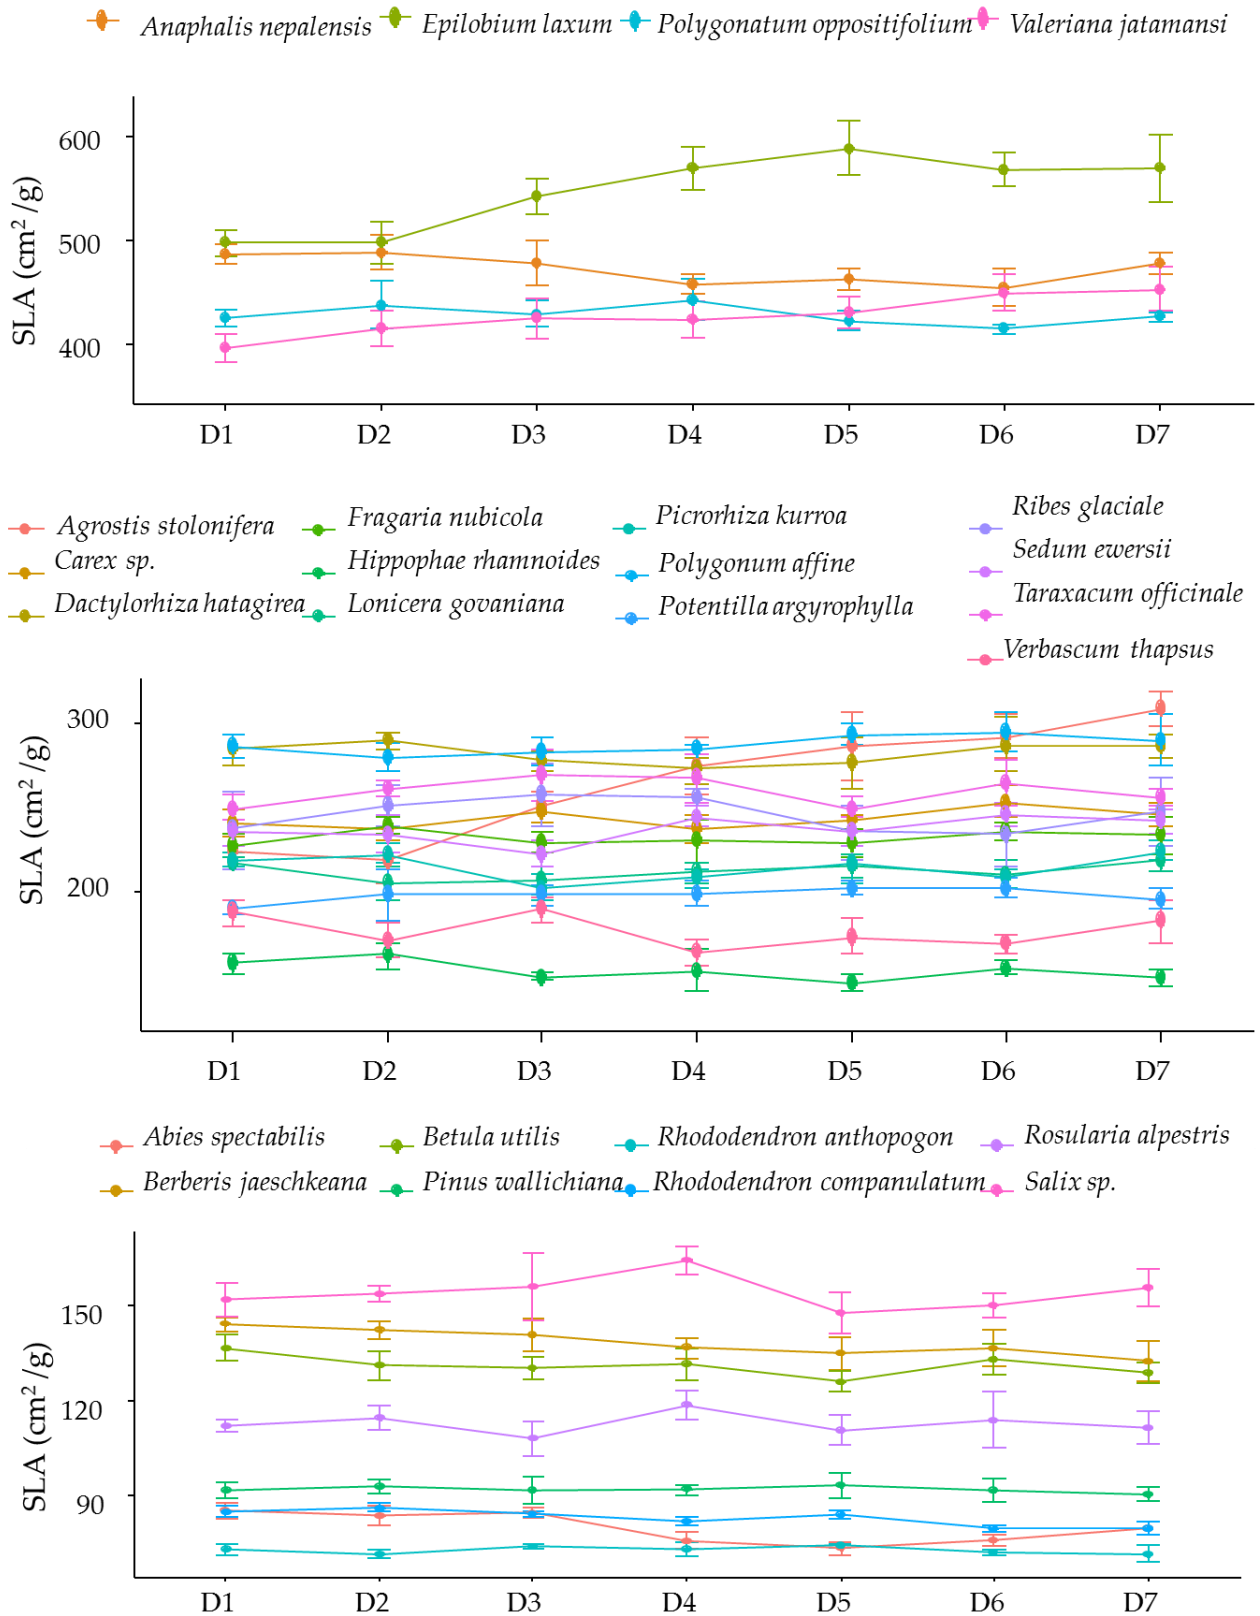

Fig. S3. Changes in specific leaf area (SLA) with storage time for different species. D1, D2, etc. represent Day 1, Day 2, etc. Figure was prepared using 'ggline()' function in R.
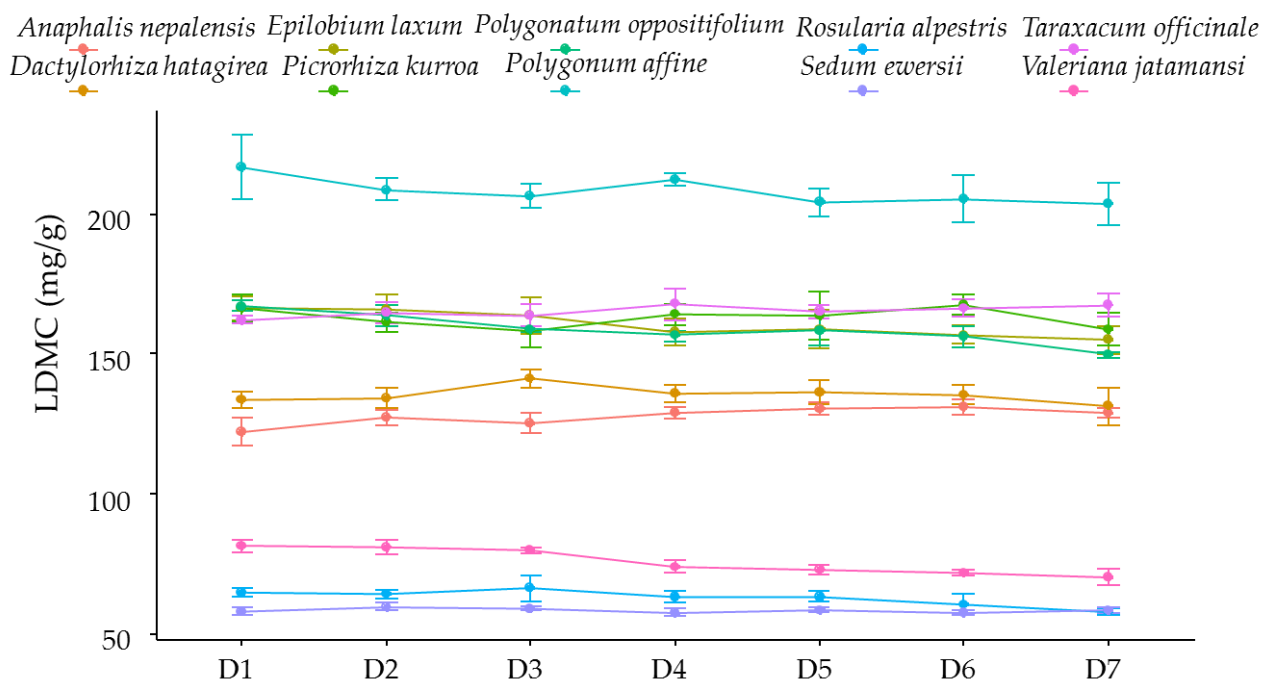

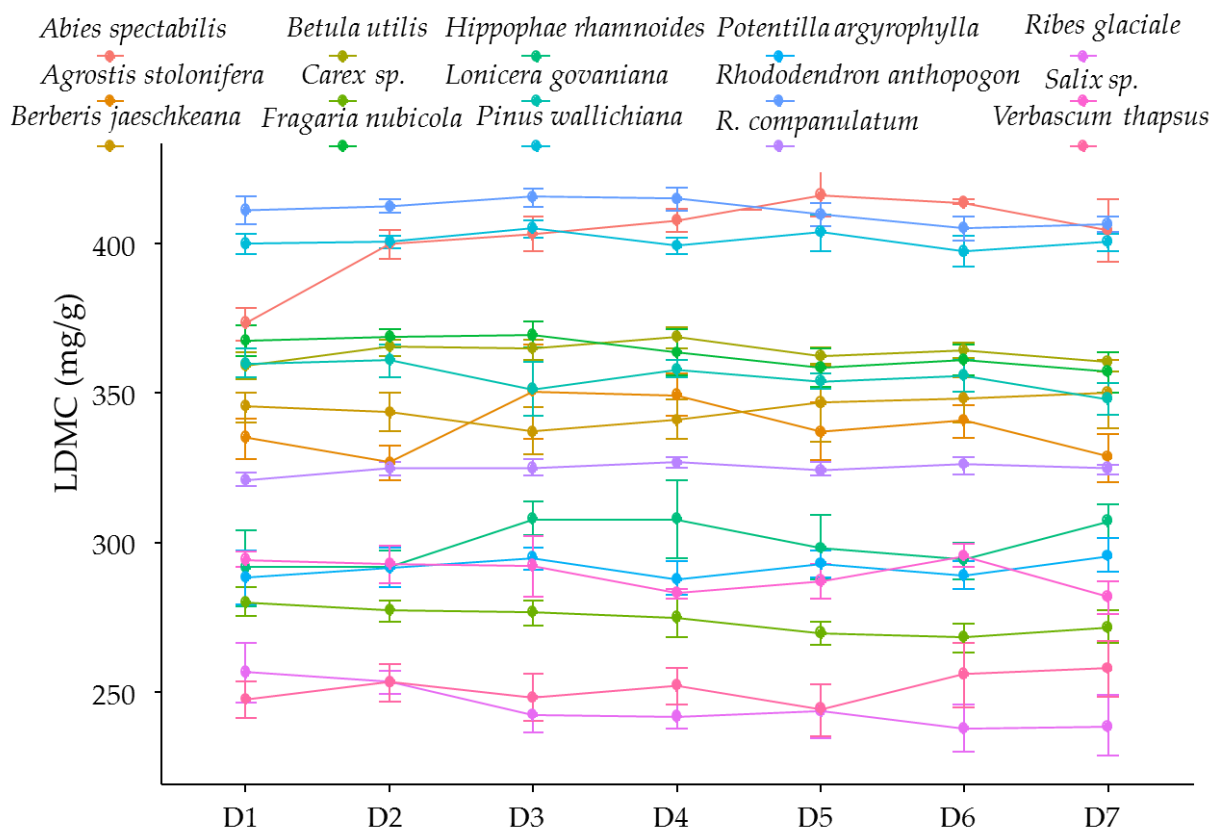

Fig. S4. Changes in leaf dry matter content (LDMC) with storage time for different species. D1, D2, etc. represent Day 1, Day 2, etc. Figure was prepared using 'ggline()' function in R.
