CONTENTS

Beckwith Review

Spectroelectrochemistry: A Powerful Tool for Studying Fundamental Properties and Emerging Applications of Solid-State Materials Including Metal–Organic Frameworks

D. M. D'Alessandro, P. M. Usov 77

Full Papers

A Porous Co^{II}-MOF for CO₂ Cycloaddition and the Protective Effect against *Staphylococcus aureus* Systemic Infection in the Department of Ultrasound

J. Cai, P.-F. Zou 94

New Bidentate *N*-Sulfonyl-Substituted Aromatic Amines as Chelate Ligand Backbones: Pd Catalyst Generation in C–C Coupling via In Situ and Precatalyst Modes

H. O. Oloyede, R. Akong Akong, J. A. O. Woods, H. Görls, W. Plass, A. O. Eseola 101

Some Products from C=O Condensations of Quinacridones

A. S. R. Chesman, A. J. Liepa 111

Temozolomide-Loaded Solid Lipid Nanoparticles@Hydrogel for Local Treatment of Tumour

W. Ji, Z. Liu 125

CO₂-Responsive Spherical Polyelectrolyte Brush with Multi-Stimulation for Reversible Protein Immobilization and Release

R. Zhang, Q. Fu, D. Zhu, Z. Shen, K. Zhou, Y. Yao, X. Zhu 135

Chiral BINAPO Induced Circularly Polarized Luminescence in a Triple-Stranded Eu₂L₃ (BINAPO)₂ Helicate

S. Bi, Y. Zhou, Y. Yao, Z. Cheng, T. Gao, P. Yan, H. Li 145

A Red-Emissive AIE Probe for Targeting Mitochondria in Living Cells

L. Xiao, R. Xiao, B. Xu, H. Chen, H. Wang 151
