	About the author			
	Oth	er books	and technical manuals by the author	viii
	Ackı	nowledg	ements	ix
	Che	mical wa	arning	X
1.	Introduction			
	1.1	Aims	of the manual	3
		1.1.1	Some key points about this book	3
	1.2	Outli	ne of the manual	4
	1.3	Role o	f manual in training programs	7
2.	Wha	at is Fa	rm Business Management?	11
	2.1	Decisi	on making is based on value judgements	13
		2.1.1	Maslow's hierarchy of needs	13
		2.1.2	Bennett's hierarchy for developing objectives	15
	2.2	A set o	of key tasks for dairy farm managers	15
		2.2.1	Production technology	16
		2.2.2	People skills	17
		2.2.3	Business management	17
	2.3	Makiı	ng the best use of service providers	18
	2.4	The d	airy farming business	21
		2.4.1	Breaking down dairy production technology	21
		2.4.2	Developing a hierarchy of business management	22
3.	Sma	allholde	er dairy farming in Asia	25
	3.1	The ir	nportance of livestock to resource-poor farmers	25
		3.1.1	Smallholder dairy farmers	27
		3.1.2	What matters to dairy farmers most	28
	3.2	Small	holder dairying in Asia	29
		3.2.1	An historical context	29
		3.2.2	The growth of dairy industries in South and East Asia	30
		3.2.3	Future projections of demand and supply of milk in South and East Asia	33
	3.3	Devel	opment of smallholder dairy farming	36
		3.3.1	Objectives of dairy development	36

		3.3.2	Types of dairy development	37
		3.3.3	The importance of rural wages and other growth factors	38
		3.3.4	Losses in the dairy value chain	39
		3.3.5	Dairy development and farm technology	40
		3.3.6	Strengthening and enabling smallholders	40
4.	Feed	d produ	uction technology on smallholder dairy farms	43
	4.1	Feed r	nutrients required by dairy cows	44
	4.2	Sourc	es of feed nutrients	45
		4.2.1	Dry matter	45
		4.2.2	Energy	45
		4.2.3	Protein	46
		4.2.4	Fibre	48
		4.2.5	Vitamins and minerals	48
		4.2.6	Essential nutrients and sources summary	49
	4.3	Predic	cting cow performance from nutrient intakes	50
		4.3.1	Water	50
		4.3.2	Energy	50
		4.3.3	Protein	52
		4.3.4	Fibre	53
	4.4	Increa	asing dairy farm profitability through improved pasture technology	53
		4.4.1	Recent sources of information on tropical forages	55
5.	lmp	roved h	nerd management on smallholder dairy farms	57
	5.1	The la	actation cycle	58
		5.1.1	From calving to peak lactation	59
		5.1.2	The rest of lactation	60
		5.1.3	The dry period	61
	5.2	Persis	tency of milk production throughout lactation	61
		5.2.1	Theoretical models of lactation persistency	62
	5.3	Milkı	responses to feeding	64
		5.3.1	The law of diminishing returns	64
		5.3.2	Marginal milk responses to extra feeding	64
		5.3.3	An example of marginal milk responses	65
		5.3.4	Immediate and delayed milk responses	66
	5.4	Rearii	ng replacement heifers	68
	5.5	_	ductive performance	69
	5.6		breeds and crossbreeds for milk production	70
	5.7	Descr	ibing environmental stress for dairy cows	72
6.	The	harves	sting and marketing of milk from smallholder farms	73
	6.1	Impro	oving unit returns for milk	7 4
		6.1.1	Milk composition	74
		6.1.2	Milk quality	76

		6.1.3	Examples of two milk grading schemes	77
	6.2	Forma	al and informal milk markets	78
	6.3	The ro	ole of dairy producer cooperatives	80
		6.3.1	Types of services offered by dairy cooperatives	82
7.	The	_	rice for raw milk	85
	7.1	Factor	rs affecting the base price of milk	86
		7.1.1	Internal influences	86
		7.1.2	External influences	86
	7.2	Local	prices for raw milk	88
		7.2.1	Annual variations in different countries	88
		7.2.2	Current farmer returns for fresh local milk	90
8.	The	import	ance of record keeping	93
	8.1	What	records should be taken?	94
		8.1.1	Farm records to keep	94
		8.1.2	Livestock records to keep	95
		8.1.3	Financial records to keep	97
		8.1.4	Recording the data in the farm office	98
	8.2	Descri	ibing the farm's physical and financial resources	98
	8.3	Comp	arative farm performance or benchmarking	101
9.	Cate	gorisin	ng farm costs and farm revenue	103
	9.1	The co	osts of farm production	104
		9.1.1	Overhead costs	105
		9.1.2	Variable costs	105
		9.1.3	Opportunity and labour costs	106
		9.1.4	Capital investments	107
		9.1.4 9.1.5	Capital investments Finance costs	107 107

		10.2.1 Cash o	pperating surplus	121	
	10.3	Income statem		122	
			easures from income statements	122	
		10.3.2 Antici	pating problems by interpreting farm business data	123	
11.	Mea	sures of farm	profit	127	
	11.1	Quantifying c	ash and non-cash profit	128	
	11.2	Quantifying c	hange in farm efficiency	129	
	11.3	Quantifying v	vealth creation	132	
	11.4	Drivers of pro	fit	134	
	11.5	Assessing the	business 'health' of Asian smallholder dairy farms	135	
		11.5.1 Liquid	lity	136	
		11.5.2 Solven	icy	136	
		11.5.3 Profita	ability	137	
		11.5.4 Efficie	ency	137	
	11.6	FEEDPROFIT	and FARMPROFIT, two computer programs		
		to quantify far	rm profits	138	
12.	Formulating profitable rations				
	12.1	1 Defining 'Milk income less feed costs'			
	12.2	Case studies o	f smallholder dairy farmers	141	
		12.2.1 Introd	uction to case studies	141	
		12.2.2 Case s	tudy 1: Formulating least cost rations	143	
		12.2.3 Case s	tudy 2: Feeding cows in early lactation	145	
		12.2.4 Case s	tudy 3: Feeding cows during the dry season	145	
13.	Feed	ing decisions	driving profit	149	
	13.1	-	the optimum herd size	150	
			factors influencing herd profitability	151	
	13.2	Determining of	optimum on-farm stocking capacities	152	
	13.3	Flow charts of	feeding decisions that drive profit	154	
14.	Key	erformance	measures of farm profitability	157	
	_		res of farm performance	158	
	14.2	-	ey factors influencing farm profitability	158	
			ng capacity	158	
			rm forage production	160	
		14.2.3 Forage		161	
		_	ntrate feeding program	162	
		14.2.5 Total f		163	
			ncome less feed costs	163	
	14.3	Herd-related k	key factors influencing farm productivity	163	
			rtion of productive cows	163	

		14.3.2	Pattern of milk production	166
		14.3.3	Reproductive performance	166
		14.3.4	Heifer management	168
	14.4	Ease of	f collecting raw data to calculate KPIs	169
	14.5	A final	word about KPIs	170
15.	Bud	geting 1	for future farm development	173
	15.1	Types	of budgets	174
		15.1.1	Cash development budgets	174
		15.1.2	Partial budgets	175
	15.2	Steps f	or a partial budget	176
		15.2.1	A case study for partial budgeting	178
	15.3	Sensiti	vity analysis	181
	15.4	Accoun	nting for time in a budget	182
16.	Risk	in trop	ical dairy farming	185
	16.1	Types	of risk	186
		16.1.1	Business v financial risk	186
		16.1.2	External v internal sources of risk	187
		16.1.3	Risk in short-term and long-term decisions	188
		16.1.4	Good and bad risks	188
	16.2	Strateg	gies for managing risk	189
		16.2.1	Analysing risk in farm management	190
	16.3	Biosec	urity as a risk management strategy	192
17.	Case	studie	es of profitable tropical dairy farming systems	195
	17.1	Cost of	f production of dairy farming in Thailand	196
		17.1.1	Competitiveness analyses	199
		17.1.2	Comments on IFCN methodology	199
	17.2	Compa	aring dairy farm production economics in Thailand and Vietnam	200
		17.2.1	General comments on Asian dairy industries	201
	17.3	Compa	aring rural and peri-urban dairying	203
18.	Plan	ning ar	nd conducting workshops in Farm Business Management	205
	18.1	Works	hop objectives	206
	18.2	Works	hop preparation	206
	18.3	Daily p	programs for each workshop	207
		18.3.1	Workshop 1	207
		18.3.2	Workshop 2	208
	18.4	Group	presentations from Workshop 1	209
	18.5	Theore	etical farm case study in Workshop 2	209
		18.5.1	Calculation of financial measures	211
		18.5.2	Developing partial budgets	213

	18.6	Conclusions from FBM workshops in Thailand	214
19.	The	future for smallholder dairy industries in tropical Asia	217
	19.1	The relevance of 'high technology'	219
		19.1.1 The process of technological change	222
		19.1.2 Technology and fertilisers	224
		19.1.3 Technology and animal health	225
	19.2	Making agriculture more sustainable	226
		19.2.1 Pollution and the public perception of dairy farming	228
	19.3	The role for Public Private Partnerships in dairy development	229
		19.3.1 The key roles for both public and private sectors	230
		19.3.2 Lessons learnt from the nine country study	231
	19.4	Ensuring a future for smallholder dairying	233
