# Acknowledgements

The editors and authors would like to thank Megan Clark and Andrew Johnson for reviewing this book, John Manger and Tracey Millen at CSIRO Publishing for their patient guidance and support, and Ian Prosser and Mary Mulcahy who provided helpful advice during the formative stage of the project. John La Salle's input on the *Atlas of Living Australia* was also much appreciated.

Much of the science referred to in the book comes from biodiversity projects of CSIRO and its collaborators, and we would like to thank our many colleagues (too numerous to mention) who provided valuable contributions that strengthened the book.

We would also like to acknowledge the assistance provided by AnneMarie White, Chris McKay, Carl Davies, Andrea Wild, Rebecca Blackburn and CSIRO Publishing for sourcing and producing the images and figures featured throughout the book.

Development of the book was managed by Fiona Brown and Larissa Cordner.
