Foreword	v
Abbreviations	xi
Author biographies	xiii
1 Introduction to the Great Barrier Reef	1
P. A. Hutchings, M. J. Kingsford and O. Hoegh-Guldberg	
Section 1: Nature of the reef	7
2 Geomorphology of coral reefs with special reference to the Great Barrier Reef	9
D. Hopley and S. Smithers	
3 The Great Barrier Reef in time and space: geology and paleobiology	25
J. M. Pandolfi and R. Kelley	
4 Oceanography	37
M. J. Kingsford and E. Wolanski	
5 Coral reef habitats and their influence on reef assemblages	51
M. J. Kingsford, C. Syms, M. Srinivasan and G. P. Jones	
6 Seabed environments, habitats and biological assemblages	63
C. R. Pitcher, P. J. Doherty and T. J. Anderson	
7 The Great Barrier Reef outer-shelf	73
T. C. L. Bridge, J. M. Webster, T. L. Sih and P. Bongaerts	
8 Primary production, nutrient recycling and energy flow through coral reef ecosystems	85
O. Hoegh-Guldberg and S. Dove	
9 Calcification, erosion and the establishment of the framework of coral reefs	101
P. A. Hutchings, O. Hoegh-Guldberg and S. Dove	

Section 2: Factors affecting the reef **115**

- | | | |
|-----------|--|------------|
| 10 | Fisheries of the Great Barrier Reef | 117 |
| | A. Chin, D. Cameron and R. Saunders | |
| 11 | Disturbances and pressures to coral reefs | 131 |
| | M. S. Pratchett and M. O. Hoogenboom | |
| 12 | Coral reefs in a changing world | 143 |
| | O. Hoegh-Guldberg | |
| 13 | Terrestrial runoff to the Great Barrier Reef and the implications for its long term ecological status | 161 |
| | J. Brodie and K. Fabricius | |
| 14 | Planning and managing the Great Barrier Reef Marine Park | 169 |
| | J. C. Day | |

Section 3: Overview of reef biodiversity and organisms **181**

- | | | |
|-----------|--|------------|
| 15 | Biodiversity | 183 |
| | P. A. Hutchings and M. J. Kingsford | |
| 16 | Plankton | 191 |
| | M. J. Kingsford and A. D. McKinnon | |
| 17 | Macroalgae | 207 |
| | G. Diaz-Pulido | |
| 18 | Mangroves and seagrasses | 219 |
| | N. C. Duke and A. W. D. Larkum | |
| 19 | Sponges | 229 |
| | J. N. A. Hooper | |
| 20 | Pelagic jellyfishes and comb jellies | 247 |
| | L. Gershwin and M. J. Kingsford | |
| 21 | Hexacorals 1: sea anemones and anemone-like animals (Actiniaria, Zoantharia, Corallimorpharia, Ceriantharia and Antipatharia) | 257 |
| | C. C. Wallace and A. L. Crowther | |

22 Hexacorals 2: reef-building or hard corals (Scleractinia)	267
C. C. Wallace	
23 Octocorals	283
P. Alderslade and K. Fabricius	
24 Worms	311
P. A. Hutchings	
25 Arthropods: crustaceans and pycnogonids	327
S. T. Ah Yong	
26 Molluscs	341
R. C. Willan	
27 Bryozoa	357
P. E. Bock and D. P. Gordon	
28 Echinoderms	365
M. Byrne	
29 Tunicates (ascidians and their allies)	377
M. Ekins	
30 The fish assemblages of the Great Barrier Reef: their diversity and origin	389
J. H. Choat, B. C. Russell and A. Chin	
31 Marine mammals and reptiles	407
H. Marsh, H. Heatwole and V. Lukoschek	
32 Seabirds	419
B. C. Congdon	
Epilogue and acknowledgements	431
Index	435
