Volume 48      Issue 11      2021

Single-cell-type transcriptomic analysis reveals distinct gene expression profiles in wheat guard cells in response to abscisic acid <i>Junbin Wang, Yang Li, Tianwen Wu, Chen Miao, Meijuan Xie, Bo Ding, Ming Li, Shuguang Bao, Xiaoqiang Chen, Zhaorong Hu and Xiaodong Xie</i>	1087–1099
Abscissic acid stimulates wound suberisation in kiwifruit ( <i>Actinidia chinensis</i> ) by regulating the production of jasmonic acid, cytokinin and auxin <i>Xiaobo Wei, Xiaopeng Wei, Weiliang Guan and Linchun Mao</i>	1100–1112
Silver nanoparticles (AgNPs) internalization and passage through the <i>Lactuca sativa</i> (Asteraceae) outer cell wall <i>Sergimar Kennedy de Paiva Pinheiro, Thaiz Batista Azevedo Rangel Miguel, Marlos de Medeiros Chaves, Francisco Claudio de Freitas Barros, Camila Pessoa Farias, Thiago Alves de Moura, Odair Pastor Ferreira, Alexandre Rocha Paschoal, Antonio Gomes Souza Filho and Emilio de Castro Miguel</i>	1113–1123
Yield determinants, root distribution and soil water uptake in maize ( <i>Zea mays</i> ) hybrids differing in canopy senescence under post-silking drought <i>M. Antonietta, M. L. Maydup, M. G. Cano, D. D. Fanello, H. A. Acciaresi and J. J. Guamet</i>	1124–1138
Large DNA fragment deletion in <i>lncRNA77580</i> regulates neighboring gene expression in soybean ( <i>Glycine max</i> ) <i>Fengjuan Niu, Qiyang Jiang, Xianjun Sun, Zheng Hu, Lixia Wang and Hui Zhang</i>	1139–1147
Identifying the genetic control of salinity tolerance in the bread wheat landrace Mocho de Espiga Branca <i>Chana Borjigin, Rhiannon K. Schilling, Nathaniel Jewell, Chris Brien, Juan Carlos Sanchez-Ferrero, Paul J. Eckermann, Nathan S. Watson-Haigh, Bettina Berger, Allison S. Pearson and Stuart J. Roy</i>	1148–1160
Phosphorus and selenium uptake, root morphology, and carboxylates in the rhizosheath of alfalfa ( <i>Medicago sativa</i> ) as affected by localised phosphate and selenite supply in a split-root system <i>Qi Peng, Zekun Zhang, Rui Su, Xingchang Zhang, Hans Lambers and Honghua He</i>	1161–1174
Metabolic programming of <i>Rhododendron chrysanthum</i> leaves following exposure to UVB irradiation <i>Xiaofu Zhou, Jie Lyu, Li Sun, Jiawei Dong and Hongwei Xu</i>	1175–1185
Cellular autofluorescence and browning in trichomes of Chinese cabbage ( <i>Brassica campestris</i> ) in response to mechanical stimulation and senescence <i>Xin Sun, Fanggui Zhao and Xin Liu</i>	1186–1198
