

> SCOPE

Australian Journal of Botany is an international journal for publication of original research in plant biology. The journal's scope encompasses all approaches to understanding plant biology and welcomes submissions of broad interest with relevance to plants and ecosystems.

The journal publishes in the areas of ecology and ecophysiology; invasive biology; conservation biology and biodiversity; forest biology and management; cell and molecular biology; palaeobotany and biogeography; reproductive biology and genetics; mycology and pathology; structure and development; and aquatic botany. Review articles, methods papers and commentaries are also encouraged.

> AUTHOR BENEFITS

- International reach and discoverability
- Indexing in a wide variety of relevant databases
- Professional copyediting for every paper
- Capture impact through citation tracking and Altmetrics
- Authors retain copyright
- Green Open Access with no embargo
- Gold Open Access compliant with major funders
- No page charges
- Rapid online publication ahead of issue release
- Eligible authors receive APC-free Open Access

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.

> SPEED

54 days from manuscript submission to first decision

28 days from manuscript acceptance to publication

> USAGE

75,329 downloads in 2022

216 Altmetrics mentions in 2022
