

> SCOPE

Australian Journal of Zoology is an international journal publishing contributions on evolutionary, molecular and comparative zoology. The journal focuses on Australasian fauna but also includes high-quality research from any region that has broader practical or theoretical relevance or that demonstrates a conceptual advance to any aspect of zoology.

Subject areas include, but are not limited to: anatomy, physiology, molecular biology, genetics, reproductive biology, developmental biology, parasitology, morphology, behaviour, ecology, zoogeography, systematics and evolution.

> AUTHOR BENEFITS

- International reach and discoverability
- Indexing in a wide variety of relevant databases
- Professional copyediting for every paper
- Capture impact through citation tracking and Altmetrics
- Authors retain copyright
- Green Open Access with no embargo
- Gold Open Access compliant with major funders
- No page charges
- Rapid online publication ahead of issue release
- Eligible authors receive APC-free Open Access

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.
