

AUSTRALIAN MAMMALOGY

publish.csiro.au/am

> SCOPE

Australian Mammalogy is a major journal for the publication of research in all branches of mammalogy. The journal's emphasis is on studies relating to Australasian mammals, both native and introduced, and includes marine mammals in the Antarctic region. Subject areas include, but are not limited to: anatomy, behaviour, developmental biology, ecology, evolution, genetics, molecular biology, parasites and diseases of mammals, physiology, reproductive biology, systematics and taxonomy.

Australian Mammalogy is an ideal resource for professional mammalogists, research scientists, resource managers, consulting ecologists, students and amateurs interested in any aspects of the biology and management of mammals.

> AUTHOR BENEFITS

- Indexing in a wide variety of relevant databases
- Professional copyediting for every paper
- Capture impact through citation tracking and Altmetrics
- Authors retain copyright
- Green Open Access with no embargo
- Gold Open Access compliant with major funders
- No page charges
- Rapid online publication ahead of issue release

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.

> SPEED

57 days from manuscript submission to first decision

37 days from manuscript acceptance to publication

> USAGE

33,284 downloads in 2022
