

ANIMAL PRODUCTION SCIENCE

publish.csiro.au/an

> SCOPE

Research papers in *Animal Production Science* focus on improving livestock and food production, and on the social and economic issues that influence primary producers. The journal is mainly concerned with domesticated animals, however contributions on horses and wild animals may also be published.

Animal Production Science publishes the highest quality original contributions dealing with animal breeding and genetics; animal nutrition and reproduction; livestock farming systems, sustainability and natural resource management; meat science and consumer acceptability; behaviour, health and welfare; feed quality and nutritional value; and bio-pharmaceuticals derived from animals.

> AUTHOR BENEFITS

- International reach and discoverability
- Indexing in a wide variety of relevant databases
- Professional copyediting for every paper
- Capture impact through citation tracking and Altmetrics
- Authors retain copyright
- Green Open Access with no embargo
- Gold Open Access compliant with major funders
- No page charges
- Online Early publication ahead of issue release
- Eligible authors receive APC-free Open Access

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.
