

BRAIN IMPAIRMENT

publish.csiro.au/ib

> SCOPE

Brain Impairment addresses topics related to the aetiology, epidemiology, treatment and outcomes of brain impairment with a particular focus on the implications for functional status, participation, rehabilitation and quality of life.

Disciplines reflect a broad multidisciplinary scope and include neuroscience, neurology, neuropsychology, psychiatry, clinical psychology, occupational therapy, physiotherapy, speech pathology, social work, and nursing.

Submissions are welcome across the full range of conditions that affect brain function (stroke, tumour, progressive neurological illnesses, dementia, traumatic brain injury, etc.) throughout the lifespan.

> AUTHOR BENEFITS

- International reach and discoverability
- Indexing in a wide variety of relevant databases, including MEDLINE/PubMed (NLM)
- Eligible authors receive APC-free Open Access
- Green and Gold Open Access compliant with major funders
- Capture impact through citation tracking and Altmetrics
- Professional copyediting for every paper
- No page charges

JOURNAL METRICS

> METRICS

These metrics are shared as a way of quantifying the impact this journal has on the research community. However, they should always be considered in the context of how they are calculated, and we emphasise that none of these journal-level metrics should be used to judge the impact of an individual article or author, or their research outputs.
