**Table S1. Biometry of the otoliths, environmental data of the tanks and  $\delta^{18}\text{O}$  values of the extracted otolith areas**

Formation date shows the experimental date at which each otolith area was formed. The analytical precisions of  $\delta^{18}\text{O}_{\text{otolith}}$  and  $\delta^{18}\text{O}_{\text{water}}$  were within 0.1 and 0.05‰ respectively. VPDB, Vienna Pee Dee Belemnite; VSMOW, Vienna Standard Mean Ocean Water
