This project was funded by Murdoch University and completed under the animal ethics permit R3079/18. A heartfelt thank you to community members Bob Patterson, Dave Martin, Jesse Steele and Robert Wroth for their local knowledge, and to Katherine Stockwell and Kate Born for their time and enthusiasm with the GIS components of the project. We are appreciative of Dr Frances D'Souza from the Department of Water and Environmental Regulation, Western Australia, who provided data on water quality. We are grateful to and acknowledge the Bindjarup Noongar people as Traditional Custodians of Peel-Harvey Estuary, and pay respects to all Elders past, present and emerging.
