

# PACIFIC CONSERVATION BIOLOGY

Volume 24 • Issue 2 • 2018

## CONTENTS

### EDITORIAL

Open Access: opportunities and problems

*M. Calver*

105

### PERSPECTIVE

An adaptive management case study for managing macropods on Maria Island National Park, Tasmania, Australia: adding devils to the detail

*J. Ingram*

108

### REVIEW

Avian nest predation in Australian temperate forest and woodland: a review

*G. R. Fulton*

122

### RESEARCH PAPERS

Is camera trap videography suitable for assessing activity patterns in eastern grey kangaroos?

*J. M. Green-Barber and J. M. Old*

134

An examination of funding for terrestrial vertebrate fauna research from Australian federal government sources

*L. G. Howell and J. C. Rodger*

142

What can we learn from untapped wildlife rescue databases? The masked lapwing as a case study

*G. H. Pyke and J. K. Szabo*

148

Quantifying extinction risk and forecasting the number of impending Australian bird and mammal extinctions

*H. M. Geyle, J. C. Z. Woinarski, G. B. Baker, C. R. Dickman, G. Dutson, D. O. Fisher, H. Ford, M. Holdsworth, M. E. Jones, A. Kutt, S. Legge, I. Leiper, R. Loyn, B. P. Murphy, P. Menkhorst, A. E. Reside, E. G. Ritchie, F. E. Roberts, R. Tingley and S. T. Garnett*

157

A collaboratively derived environmental research agenda for Galápagos

*A. Izurieta, B. Delgado, N. Moity, M. Calvopiña, I. Cedeño, G. Banda-Cruz, E. Cruz, M. Aguas, F. Arroba, I. Astudillo, D. Bazurto, M. Soria, S. Banks, S. Bayas, S. Belli, R. Bermúdez, N. Boelling, J. Bolaños, M. Borbor, Ma. L. Brito, L. Bucheli, K. Campbell, D. Carranza, J. Carrión, M. Casafont, X. Castro, S. Chamorro, J. Chávez, D. Chicaiza, R. Chumbi, P. Couenberg, D. Cousseau, M. Cruz, N. d'Ozouville, C. de la Guía, G. de la Torre, C. M. Díaz, J. Duchicela, D. Endara, V. Garcia, C. Gellibert, J. Gibbs, J. C. Guzmán, P. Heylings, A. Iglesias, J. C. Izurieta, P. Jaramillo, A. Klingman, A. Laurie, P. Leon, J. Medina, E. Mendieta, G. Merlen, C. Montalvo, E. Naula, D. Páez-Rosas, M. Peralta, M. Peralvo, M. Piu, J. Poma, J. Pontón, M. Pozo, D. Proaño, M. Ramos, A. Rousseaud, D. Rueda, P. Salinas, G. Salmoral, S. Saraguro, D. Simón-Baile, W. Tapia, B. Teran, M. Valverde, A. Vargas, J. Vega, W. Velásquez, A. Vélez, S. Verdesoto, H. G. Villarraga, F. Vissoli, C. Viteri-Mejía, L. Norris-Crespo, S. C. Cooke, M. V. Toral-Granda and W. J. Sutherland*

168

Aestivation dynamics of bogong moths (*Agrotis infusa*) in the Australian Alps and predation by wild pigs (*Sus scrofa*)

*P. Caley and M. Welvaert*

178

Differences in abundance and diversity of diurnal invertebrates among three Fijian forests, and a comparison of two trapping methods for rapid assessments

*N. Westwood, M. Pearson, E. Mustafa and A. T. Scanlon*

183

Declining spring usage of core habitat by endangered fish-eating killer whales reflects decreased availability of their primary prey

*M. W. Shields, J. Lindell and J. Woodruff*

189

### RESEARCH NOTES

Clever girl? An observation of innovative prey handling by a dingo (*Canis dingo*)

*L. Behrendorff*

194

Strengthening participatory approaches to coastal fisheries governance in Papua New Guinea: the role of local-level government legislation <i>G. Zheng</i>	198
The longest-lived spider: mygalomorphs dig deep, and persevere <i>L. D. Mason, G. Wardell-Johnson and B. Y. Main</i>	203
<b>CORRIGENDUM</b> A collaboratively derived environmental research agenda for Galápagos	207
